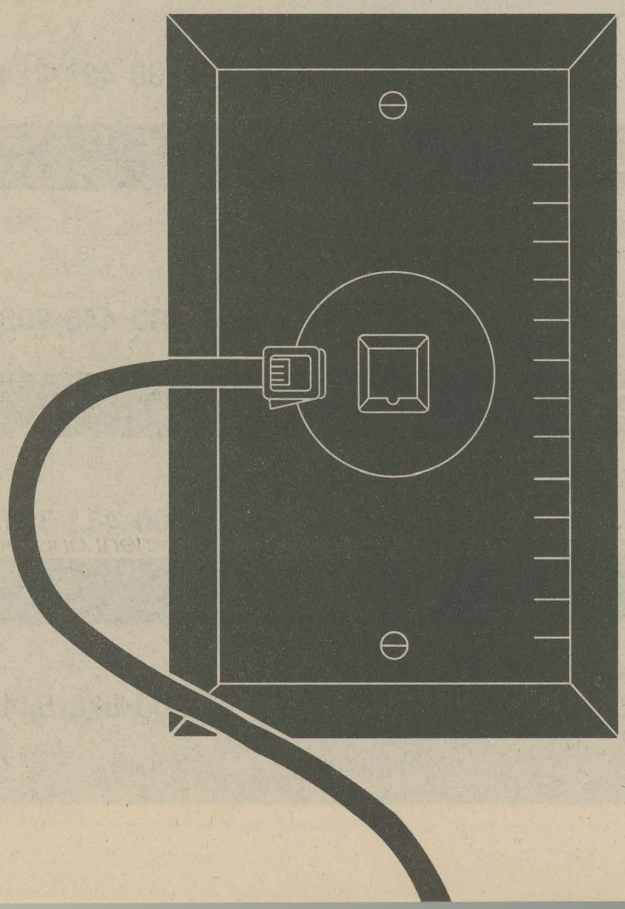
What Should I Know First?

If you need to get phone service connected, ask a question about your bill, or talk to us about your service — here's how. In this section, you'll also find out the kinds of questions we'll ask if you call our service center.



How do I order new phone service or change or stop my current service?

If you've just *moved into a new home or established a new business,* we'll be happy to connect your phone service. We can also *make any needed changes to your current service.* Please call GTE's Customer Contact Center at one of these toll-free numbers: Residential customers call **1-800-483-4400.** Business customers call **1-800-483-5400.**

WE'RE AT YOUR CALL!

For changes or additions to your service, you can also contact or visit the **GTE Phone Mart** at 2300 S. First Place, Broken Arrow, OK, **1-800-730-8229.**

WE'RE AT YOUR CALL!

All customers with Text Telephones *(TTYs — special equipment for people with hearing and/or speech disabilities)* call GTE through the Arkansas Relay Service. *(Please see pages 26-27 for calling instructions.)*

TO SPEED SERVICE, PLEASE PROVIDE THE FOLLOWING INFORMATION WHEN APPLYING FOR NEW TELEPHONE SERVICE:

1. Your street address.
2. How you want your name to appear in the directory.
3. The type of local service you want.
4. The SmartCall® Services you want to order — Call Waiting, for example. *(Please see pages 44-63 for more information).*
5. Credit information — If you have not had the opportunity to establish a credit history with GTE or another phone company, a deposit may be required. *(Please see the next section for deposit information.)*
6. Information about previous telephone service.

Residential phones are installed for normal domestic use. Residential telephone service will be changed to business service if the phone is used primarily for business or is advertised for business purposes. If you are a business customer who wants to change from business telephone service to residential telephone service, you will be required to change your telephone number.

Will I need to provide a deposit for my telephone service?

It depends. Under certain conditions, which are outlined in the rules of the Arkansas Public Service Commission *(PSC)*, a deposit may be required to establish new service with us. Deposits are usually equal to one-twelfth of your annual charges for local service and one-sixth of your estimated annual charges for toll calls. You can pay this deposit in two installments; one-half before your service is connected, and the other half with your first bill. *(Customers who must provide a deposit because they have tampered with telephone company equipment and/or participated in unauthorized use of telephone service are not permitted to pay their required deposits in installments.)*

Deposits may also be required as a result of late payment, disconnection, nonpayment, or other circumstances as outlined in the PSC rules.

Deposits are refunded with interest on your final bill or after one year, provided your payments have been on time.

Your deposit requirement can be waived if another person *(who meets the credit standards)* provides a written guarantee to cover a payment equal to the cash deposit required from you. This person will then be responsible for payment of your deposit if you don't pay your monthly bills or if you leave an unpaid final bill. This person's responsibility ends when you have established satisfactory credit. Guarantee forms are available through GTE's Customer Contact Center.

Is there a charge to start new service?

Yes. Please talk to GTE's Customer Contact Center about the charges for your area. Installation charges generally appear on your first telephone bill.

If you are a residential customer, you have the option of paying your installation service charges in six equal monthly installments.

Certain residential customers may be eligible for Link Up Arkansas, a program providing funds to help customers pay telephone installation charges. To qualify, an applicant must meet these requirements:

- Is not classified as a dependent for federal income tax purposes, unless he or she is more than 60 years old.
- Meets the eligibility requirements for food stamps, Aid to Families with Dependent Children, Medicaid, or the Home Energy Assistance Program *(including recipients of Supplemental Security Income).*

Customers who are eligible recipients of a Department of Housing and Urban Development subsidized housing program are also eligible for Link Up Arkansas.

For more information about installation charges, please call GTE's Customer Contact Center at one of these toll-free numbers:

- Residential customers call **1-800-483-4400.**
- Business customers call **1-800-483-5400.**
- Text Telephone (TTY) customers call GTE through the Arkansas Relay Service. *(Please see pages 26-27 for calling instructions.)*

Can GTE install my inside telephone wires?

Yes. If your home or business requires wiring, GTE can provide quality inside wire service. And during construction or remodeling, GTE can prewire structures to eliminate exposed wiring.

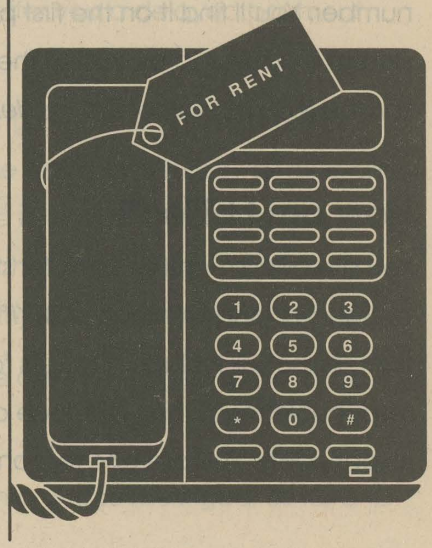
Check to see if your home or place of business is already wired for telephone service. If so, GTE can activate your phone line for both local and long-distance calls.

Independent contractors and residential customers can also wire buildings for telephone service. GTE will provide the necessary telephone interface to the building. Please remember that all inside wiring must meet the regulated standards.

Does GTE provide telephones?

WE'RE AT YOUR CALL!

Yes. Contact or visit the **GTE Phone Mart** at 2300 S. First Place, Broken Arrow, OK, **1-800-730-8229**, for information on our wide range of telephones and other equipment — answering machines, for example — available for rent or purchase. Our **GTE Phone Mart** representative can give you all the details, including maintenance on rental equipment. You can also get information on rental phones from our Customer Contact Center. Rental phones can be shipped free to your home. *(Deposits may be required on rented equipment.)* For information about rental phones, call us at one of these toll-free numbers:



- Residential customers call **1-800-483-4400.**
- Business customers call **1-800-483-5400.**

WE'RE AT YOUR CALL!

- Text Telephone (TTY) customers call GTE through the Arkansas Relay Service. *(Please see pages 26-27 for calling instructions.)*

If you decide to rent your phones from GTE, please keep the following return policies in mind: It is your responsibility to make arrangements to return a GTE rental phone within five days of discontinuing your GTE telephone service. Otherwise, you will be billed the replacement cost of the telephone. If this occurs, your telephone bill containing the non-return charge will be your receipt of purchase.

What if I have a question about my bill?

If you have billing questions, please contact us at one of these toll-free numbers:

- Residential customers call **1-800-483-3400.**
- Business customers call **1-800-483-5400.**
- Text Telephone (TTY) customers call GTE through the Arkansas Relay Service. *(Please see pages 26-27 for calling instructions.)*

For your convenience, you can also use GTE's new automated system to check the status of your bill and make payment arrangements.. Before you call, please locate your customer ID number. You'll find it on the first page of your bill next to your telephone number. The automated system is accessed by calling the telephone number listed above for residential customers. *(This service is only available to residential customers.)*

How am I billed?

You are billed monthly. Look for standard charges, including local service *(billed one month in advance)*, long-distance calls *(if applicable)*, optional services, and any past due amount. Your first bill also will include charges for installation costs and prorated local service. You are responsible for all long-distance calls made from a telephone number for which you have billing responsibility. You are also responsible for all authorized charges made to your calling card.

When do I pay my bill?

The due date for your payment is printed on the bottom of your bill. If you are sending us your payment, we must receive it on or before the due date. If you are paying in person at an authorized payment location, you need to do so before our close of business on the due date. For more information about authorized payment locations in your area, please call your GTE Customer Contact Center at one of these toll-free numbers:

- Residential customers call **1-800-483-3400.**
- Business customers call **1-800-483-5400.**
- Text Telephone (TTY) customers call GTE through the Arkansas Relay Service. *(Please see pages 26-27 for calling instructions.)*

If you request to have your service disconnected, billing to your account will stop on the disconnection date you request.

What if I can't pay my bill?

If you cannot pay your bill by the due date, we may be able to offer you a delayed payment agreement or an extended due date.

GTE will enter into a delayed payment agreement with a qualifying customer if the customer agrees to pay the down payment and all installments by their due dates and to pay all new bills in full by each bill's respective due date. GTE will not require more than 25% of the overdue bill as a down payment. GTE allows customers to pay their overdue charges in equal installment payments over a period of at least three months beginning with the date of the initial payment.

Customers in the following situations can have their payment due dates changed to coincide with or follow the receipt of their income:

- Persons receiving Aid to Families with Dependent Children or Aid to the Aged, Blind, and Disabled
- Persons receiving Supplemental Security Income
- Persons whose primary source of income is Social Security, Veterans Disability, or Retirement Benefits

If you plan to be away from your home for an extended period of time, payment options are available to prevent the suspension of your telephone service. Examples include advance payments and bank drafts.

For more information about billing and payment options, please contact a GTE representative at one of these toll-free numbers:

- Residential customers call **1-800-483-3400.**
- Business customers call **1-800-483-5400.**
- Text Telephone (TTY) customers call GTE through the Arkansas Relay Service. *(Please see pages 26-27 for calling instructions.)*

Where do I pay my bill?

You can pay by mail or by automatic bank payment. You may also be able to pay in person. For mailed payments, please use the return envelope enclosed with your bill. Do not send cash. Payments for local service go to GTE, Post Office Box 920041, Dallas, Texas 75392-0041. Payments for equipment rental and maintenance bills go to GTE, Post Office Box 660652, Dallas, TX 75266-0652. For in person or automatic bank payments from your account, contact your service representative for more information.

Why would my telephone service be disconnected?

Telephone service can be disconnected if you don't pay your telephone bill. Your payment is due 22 days from the date your bill is mailed. If full payment is not received by that date, you may receive a "shut-off notice" telling you that your service may be temporarily suspended because you haven't paid your bill. The shut-off notice will include a new due date, by which you must pay all outstanding charges to avoid having your service suspended. *(Required payment following disconnection will include all late charges, reconnection charges, and a deposit to re-establish your credit.)*

Your service won't be disconnected until you've been given a written warning and your payment still hasn't been received. If you are concerned about your ability to receive or understand disconnection notices, you can request that copies of all of your notices be sent to another person.

Disconnection of residential service can be postponed if the discontinuance of telephone service will aggravate an existing medical emergency in the household. A physician or other health care professional must notify GTE about the medical situation and fill out a medical certificate form. Special allowances can also be made for customers who are 65 years old or older or are disabled. Customers fitting into these categories should register with GTE in advance of any billing or payment problems. Then, if a payment problem does occur, the customer will be contacted and offered assistance.

OTHER REASONS TELEPHONE SERVICE COULD BE DISCONNECTED ARE:

1. Failure to comply with the terms of a deferred payment agreement.
2. Failure to comply with deposit or credit arrangements.
3. Failure to remove unauthorized attachments from GTE lines, after receiving written notice.
4. Failure to stop abuse or misuse of telephone service, such as calls made in a profane, obscene, or frightening manner, after receiving written notice.
5. Abandonment of telephone service without notice to GTE.
6. Tampering with or bypassing GTE's equipment.
7. Giving false information to obtain telephone service.
8. Failure to allow GTE access to our equipment on your premises.
9. Violating the rules designed to prevent interference with other customers' telephone service.
10. Causing *(or threatening to cause)* damage to GTE's equipment or injury to a GTE employee.
11. Violating federal, state, or local laws through the use of telephone service.
12. Causing a situation that poses a health or safety hazard.

Please note: Your service *won't* be disconnected if you fail to pay an amount currently involved in payment dispute and resolution procedures. You must, however, pay the entire amount of your bill(s) that is not in dispute. Settlement of the disputed amount should take place once the dispute is resolved. Settlement of disputed amounts should not exceed 60 days under any circumstances.

What if my phone isn't working?

For repair service, please call us at one of these toll-free numbers:

- Residential customers and business customers with a single line call **1-800-483-1000.**
- Multiline business customers

  GTE Without Maintained Equipment call **1-800-483-2000.**

  GTE With Maintained Equipment call **1-800-527-2558.**

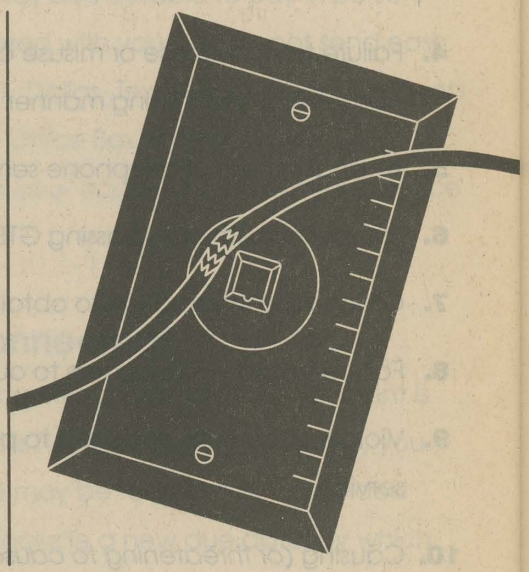
- Text Telephone (TTY) customers call GTE through the Arkansas Relay Service.

(Please see pages 26-27 for calling instructions.)

Before calling, please read the following information. It will help you and your GTE customer service representative identify what is wrong with your phone.

THE FOLLOWING SITUATIONS USUALLY INDICATE A PROBLEM WITH THE OUTSIDE LINE:

- No dial tone on all phones
- Can't call in or out on all phones
- Get cut off when talking on all phones
- Noise or static on all phones



THE FOLLOWING SITUATIONS USUALLY INDICATE A PROBLEM WITH THE INSIDE LINES:

- A phone works in one jack but not in another
- Loose or broken phone jack

THE FOLLOWING SITUATIONS USUALLY INDICATE A PROBLEM WITH THE TELEPHONE:

- Stuck pushbuttons
- Broken clips or plugs
- Worn cords
- Stuck receiver buttons

When you have a service problem, we'll do our best to quickly locate and clear up the trouble. Depending on the source of the problem, the following guidelines will apply:

OUTSIDE LINE: GTE maintains your outside phone lines as a part of your basic monthly service. Outside lines will be repaired at no cost to you.

INSIDE LINE: Generally, phone lines inside your home are yours to maintain and repair. For worry-free inside line maintenance, GTE offers an optional Lineskeeper® service, at a low monthly fee. If you subscribe to Lineskeeper service, GTE will repair your inside wires at no additional charge.

- Call toll-free **1-800-483-4400** for more information about Lineskeeper service.

TELEPHONE: If you rent from GTE, repair is included in your monthly fee. If you own your telephones, you are responsible for their repair and should follow the warranty instructions.

For your protection, GTE employees are required to carry official employee identification cards when working in your home. This card includes the employee's name and photograph. We suggest you ask to see this ID card before allowing any repair person to enter your home. If you have any questions, call **1-800-483-1000.**

What if I have a complaint about my telephone service?

We hope it won't happen, but if you have a complaint about your telephone service, please discuss the problem with a GTE customer service representative. Our representatives are specially trained to solve your telephone problems.

- Residential customers call **1-800-483-4400.**
- Business customers call **1-800-483-5400.**
- Text Telephone (TTY) customers call GTE through the Arkansas Relay Service. *(Please see pages 26-27 for calling instructions.)*

If your GTE customer service representative cannot solve your problem, ask to speak with a supervisor or manager, or you may call customer relations, toll-free, at **1-800-483-7988.**

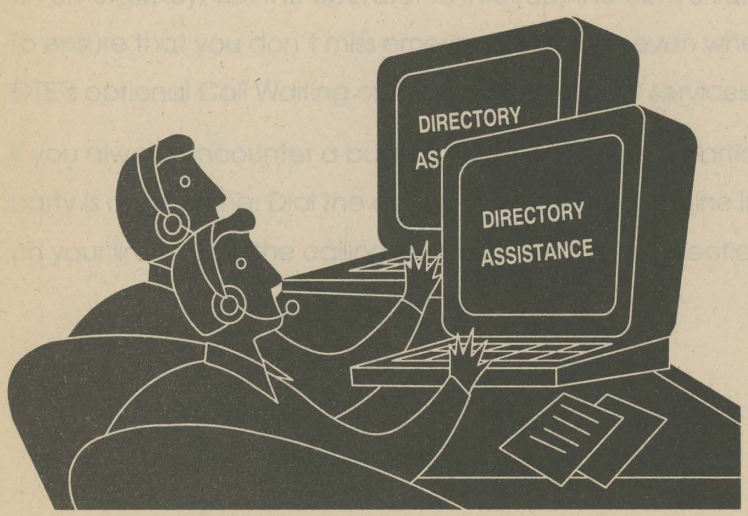
You may also contact the Arkansas Public Service Commission for further review of your complaint or dispute. To reach the commission, you may write or call:

Arkansas Public Service Commission
1000 Center Street
P. O. Box 400
Little Rock, AR 72202
682-1718 or 1-800-482-1164

Russ Surgery Center
890-2654

How Do I Make This Call?

Do you have trouble finding telephone numbers that you need? Directory Assistance can help, and in this section we'll explain how. You'll also find local and long-distance calling instructions here — plus, area code listings and information on special needs services.



How can I find a number not listed in this directory?

Need assistance finding a local phone number? Customers within Pope County, please call **411.**

Customers outside Pope County, please call **1-411.**

For assistance finding long-distance numbers, please call **1-(area code)-555-1212.**

If you need an "800/888" number, please call **1-800-555-1212.**

If you have a Text Telephone (TTY), please call, toll-free **1-800-855-1155** for Directory Assistance. However, applicable long-distance and operator service charges will apply on operator-assisted calls.

Will I be charged for Directory Assistance?

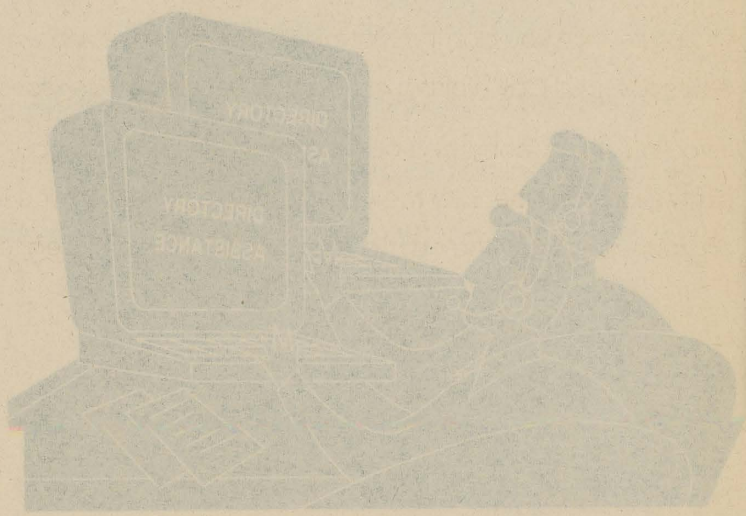
Within your local calling area, you can make one Directory Assistance call during each monthly billing period at no cost. Extra calls are billed at 40¢ each. You may request two numbers at a time — at the start of your call, please tell the operator that you will be requesting two listings. *(Charges do not apply to local Directory Assistance calls from pay phones, motels and hotels, hospitals, or from customers who are unable to use the phone book because of a permanent disability.)*

Can't find pen and paper to write down the number? Simply press 1, and the number you requested from Directory Assistance is automatically dialed for you. Completed Directory Connect Plus calls cost 50¢ and will be charged to your phone bill in addition to any other applicable directory assistance charges. *(Charges will also apply to calls placed by disabled customers.)* This service is not applicable to non-published numbers nor will the service be provided to "800/888," "900," or "976" service numbers.

The Arkansas Public Service Commission regulates the charges listed here. These rates were correct on the date that this directory was compiled. These charges are subject to change by order of the Arkansas Public Service Commission. Current rates are always available from GTE's Customer Contact Center.

How do I make a local call?

To make a local call, you don't need to dial "1" + area code. Simply dial the seven-digit telephone number. Your local (toll-free) calling area includes all the customers in your exchange plus the exchanges indicated on the calling chart on page 17.



What is my local calling area?

If your prefix is:	You may call the following prefixes toll free:
Atkins (641)	284, 293, 331, 641, 890, 964, 967, 968
Centerville (576)	229, 576
Clarksville (754, 979)	292, 497, 754, 885, 979
Dardanelle (229)	229, 576
Dover (331)	284, 293, 331, 641, 890, 964, 967, 968
Hartman-Coal Hill (497)	292, 497, 754, 885, 979
Hector (284)	284, 293, 331, 641, 890, 964, 967, 968
Lamar (885)	292, 497, 754, 885, 979
London (293)	284, 293, 331, 641, 890, 964, 967, 968
Russellville (498, 858, 890, 964, 967, 968)	284, 293, 331, 498, 641, 858, 890, 964, 967, 968
Salus (292)	292, 497, 754, 885, 979

What should I do if the number I'm calling is always busy?

You can ask the operator to check the line to see if the number is working normally. If you have an emergency, ask the operator to interrupt the conversation. Operator charges might apply. To ensure that you don't miss emergency calls — even when you're on the phone — check into GTE's optional Call Waiting or Personal Secretary® services.

If you always encounter a busy signal when calling a particular number, it is possible the other party is on your line. Dial the operator, who will determine if the party is on your line. If the party is on your line, follow the calling instructions in the next section, "What if I have a party line?"

What if I have a party line?

If you are in Hartman-Coal Hill or Salus and are a party line user, you may call someone on your party line by following these instructions. *(The instructions provided in the Info Pages for local and long-distance calling also apply to your party line service.)*

- Lift the receiver and listen for a dial tone.
- Dial the directory listed number and wait for a recording, then hang up.
- Your phone and the called party's phone will ring.
- When the ringing stops, the called party has answered. Pick up your receiver and talk.
- If the called party does not answer within a reasonable length of time, remove your receiver and replace it after a few moments. This will break the connection.

How do I make a long-distance call?

Use area codes when making calls to locations outside of your local calling area. Refer to the maps and listings starting on page 22 to locate the area codes you need. If the city you want is not listed, contact your long-distance provider.

To make a long-distance call without operator assistance, dial "1" + (area code) + number. You can save money by dialing your calls direct without involving the operator. Charges for long-distance calls are set by your long-distance provider. Contact your provider for information about rates and discounts.

To use your GTE Calling Card, dial "0" + (area code) + number. You will hear a special tone indicating that you should enter your Calling Card number. If you are calling from a rotary phone, wait for the operator to come on the line to assist you.

For operator assistance, dial "0" + (area code) + number. When the operator answers, explain the type of call *(listed below)* you want to make. Charges for operator-assisted calls begin once the operator connects you to the person you are calling and leaves the conversation. These charges are in addition to the direct-dialed rate for the call. You can ask the operator to tell you the time and charges of the call.

STATION-TO-STATION: Call station-to-station if you want to talk to anyone who is likely to answer the phone at the number you're calling.

PERSON-TO-PERSON: Calling person-to-person is an efficient use of your long-distance dollars. It ensures that you will only be charged for the call if the particular person or specific extension you are calling is available.

COLLECT: Collect calls are especially convenient if you are calling from a pay phone and you don't have the required change or a Calling Card. The operator will ask the person you are calling to accept the charges for the call.

THIRD-NUMBER BILLING: What if you are in someone else's home or office and need to make a long-distance call but want the charges to appear on your own telephone bill? You can request third-number billing from the operator. Third-number billing is also useful if you are calling from a pay phone and do not want to call collect. However, when you request third-number billing, someone must answer the third-number and approve the call before it can be completed.

Who provides my long-distance service?

Your long-distance calls are handled by GTE or by the long-distance provider of your choice. States are divided by area codes and by Local Access Transport Areas (LATAs). The LATA boundaries determine which companies handle your short and regional long-distance calling. GTE provides complete calling services (*including local and long distance service*) to points within your LATA. *(The map on page 20 indicates the boundaries of your LATA.)*

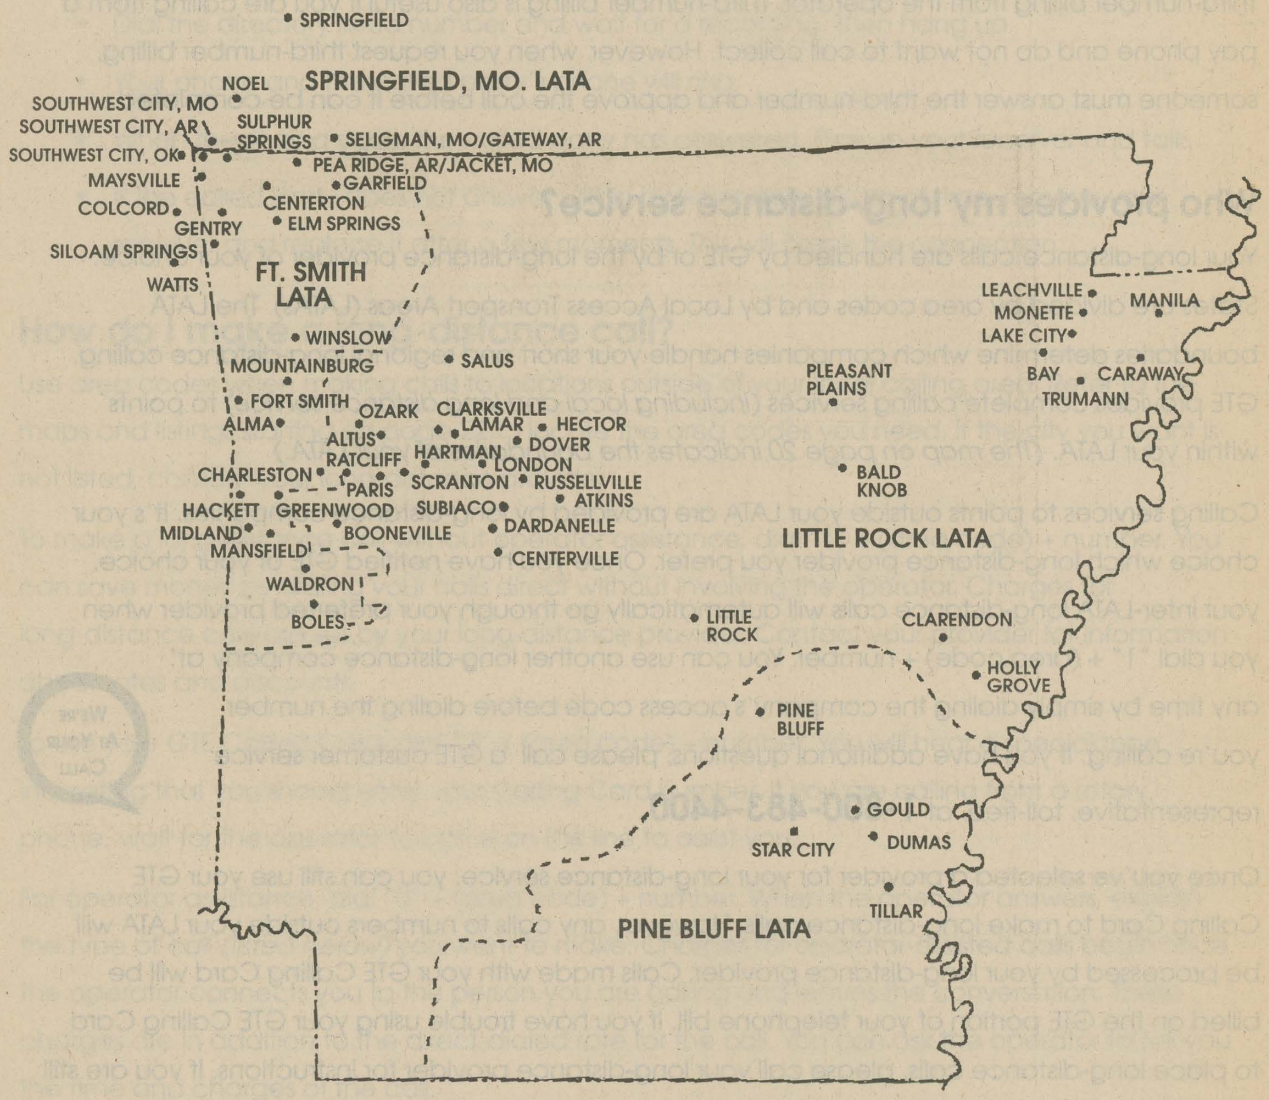
Calling services to points outside your LATA are provided by long-distance companies. It's your choice which long-distance provider you prefer. Once you have notified GTE of your choice, your inter-LATA long-distance calls will automatically go through your preferred provider when you dial "1" + (area code) + number. You can use another long-distance company at any time by simply dialing the company's access code before dialing the number you're calling. If you have additional questions, please call a GTE customer service representative, toll-free, at **1-800-483-4400.**

Once you've selected a provider for your long-distance service, you can still use your GTE Calling Card to make long-distance calls. However, any calls to numbers outside your LATA will be processed by your long-distance provider. Calls made with your GTE Calling Card will be billed on the GTE portion of your telephone bill. If you have trouble using your GTE Calling Card to place long-distance calls, please call your long-distance provider for instructions. If you are still unable to use your GTE Calling Card to place the call, dial "0" and tell the operator you want to place a call with your GTE Calling Card. The operator will ask you for the calling card number and then place the call for you.

What are my LATA boundaries?

The map below shows Local Access Transport Area (LATA) boundaries for the state of Arkansas.

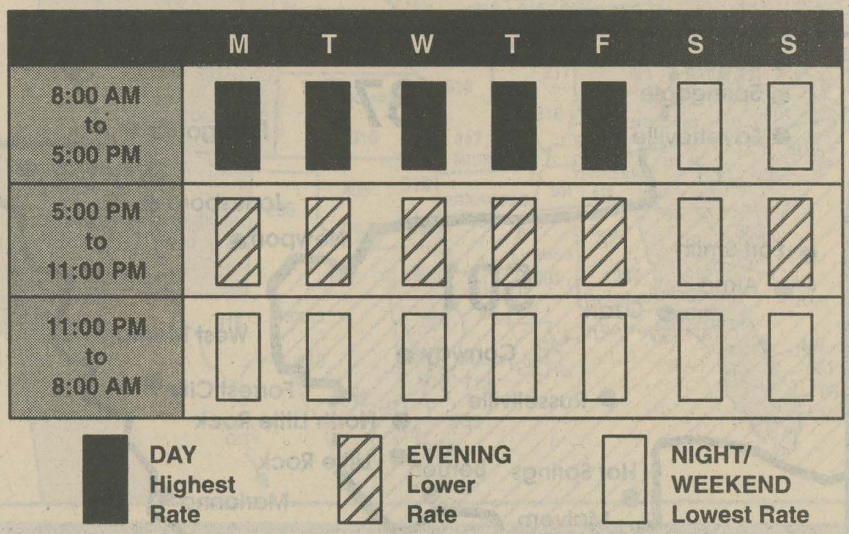
For explanation of LATAs, see previous page.



How much will I pay for my long-distance calls?

Rates for long-distance calls are based on the length of the call and on the time of day when the call is placed. Charges start at the rates that are in effect at the time your call is connected. The rates will change if the call continues into a new time period. Discounts are usually applied to calls made in the evening, at night, and on weekends.

Here is an example of time periods and the rates that may apply:



GTE also has holiday rates for New Year's Day, July 4th, Labor Day, Thanksgiving Day, and Christmas Day. On these holidays the evening rate applies all day on direct-dialed calls and the lower night and weekend rates still apply when appropriate.

Check with your long-distance provider for its standard charges and discount and holiday rates.

What is my area code?

Your area code is 501. Dial the area code on all long-distance calls, even if it is the same as your own. The map below shows the area code boundaries for the state of Arkansas. The shaded area indicates your area code.

How do I make an international call?

Your international calls automatically go through the long-distance provider you selected for your telephone service. If you want, you can use another long-distance company by dialing that company's access code before dialing the number you're calling. Your GTE Calling Card can also be used to make international calls from the United States and to call back to the United States from some foreign countries. *(Your GTE Calling Card cannot be used to make calls between foreign countries.)*

Here's how to place an international call: To dial direct, dial "011" + country code + city code + number. It takes a while for international calls to connect; you can expect to wait at least 45 seconds *(after you've finished dialing)* for the ringing to start. If you need operator assistance, dial "01" + country code + city code + number. The operator will ask what type of call you are making. *(Please see the section "How do I make a long-distance call?" for definitions of call types.)*

Frequently-used country codes are listed below. For information about specific country and city codes, please contact your long-distance provider.

Algeria	213	Finland	358	Kenya	254	Philippines	63

(Calls to Canada, Puerto Rico, and many Caribbean countries are dialed the same way as long-distance calls within the United States. In other words, to call these countries you only need to dial "1" + area code + number. No country, city, or international access codes are required.)

Is calling assistance available for people with hearing or speech disabilities?

Yes. If you or someone you know needs special assistance making calls, here are three items that will help:

1. The Americans with Disabilities Act of 1990 requires all states to provide access to nationwide Telecommunications Relay Services (TRS). Through the TRS, callers using Text Telephones (TTYs/TDDs) are able to communicate with other people who use standard voice telephones. TRS communication assistants relay telephone conversations verbatim simultaneously between TTY users and non-TTY users.

   The Arkansas Relay Service operates 24 hours a day, seven days a week. Employees of the relay service are not allowed to disclose any information received during the relay of the call. Calls made through the relay service are confidential. Operators relay entire conversations, leaving nothing out.

   There is no charge to use the relay service. Discounted rates may apply to calls placed to telephone numbers within your LATA. Calls to telephone numbers outside of your LATA will be billed at your long-distance provider's regular rates. *(Please see pages 19-20 for LATA information.)*

   The toll-free number for Arkansas Relay Service is **1-800-285-1131** for TTY users. If you do not have a TTY, but want to use the Arkansas Relay Service to call someone who does, call **1-800-285-1121.**

   If you are using the relay service to make a long-distance call, tell the operator which long-distance company you want to handle your call. Some long-distance companies have their own access numbers for relay services. Contact your long-distance provider for more information.

   Customers with TTYs can use the relay service to call GTE departments. Here's how: Call the Arkansas Relay Service at **1-800-285-1131.** Tell the operator the number you wish to call:

- For installation/service: **1-800-483-4400**
- For billing information: **1-800-483-3400**
- For repair service: **1-800-483-1000**

2. Using a Text Telephone (TTY) device, someone with hearing or speech disabilities can call the TTY Communication Assistance Operator, toll-free, at **1-800-855-1155** for assistance. Calls to this number are free, but long-distance and operator assistance charges will apply. The TTY operator can help with:

   Operator assistance calls

   Collect calls

   Calling Card and third-number billing calls

   Person-to-person calls

   Directory assistance requests

   Calls from motels and hotels

   Line interruption

   Busy line verification

3. Customers with certain disabilities may be exempt from Directory Assistance charges. They may also qualify for special rates on out-of-area direct-dialed and station-to-station calls. For more information, call GTE's Customer Contact Center at **1-800-483-4400.**

What Else Can This Directory Do?

Are you wanting more privacy? Do your teenagers want their names in the phone book, too? This is your directory, and we want you to be happy with how you're listed in it. So, we've set up this section to explain your listing options. We'll also provide you with ZIP code listings for your state, tell you how you can get additional directories, and inform you about important emergency procedures.

What are the ZIP codes for my state?

ZIP codes are provided by the U.S. Postal Service. GTE Directories assumes no responsibility for omissions. Questions or comments can be directed to your Postmaster.

How will I be listed in the phone book?

Generally, your name, address, and phone number appear in your listing. You can ask for an alteration, such as listing just your name and phone number, or using an initial instead of your full first name. You will be listed once in the White Pages without charge. The following options are also available *(additional charges will apply)*:

ADDITIONAL LISTINGS: Even if your telephone service is in someone else's name, you can request an additional directory listing in your name. Other family members can be added to your listing. Additional listings can also give someone who is already listed extra exposure.

NON-LISTED SERVICE: You can omit your listing from the White Pages, but retain it in our Directory Assistance records.

NON-PUBLISHED SERVICE: For privacy, you can omit your listing from the White Pages and Directory Assistance records.

Call GTE's Customer Contact Center for information about changing your listing:

- Residential customers call **1-800-483-4400.**
- Business customers call **1-800-483-5400.**
- Text Telephone (TTY) customers call GTE through the Arkansas Relay Service.
  (Please see pages 26-27 for calling instructions.)

We make every effort to assure that the listings in our directories are accurate, but GTE assumes no liability for charges resulting from errors or omissions. If you are aware of an error or problem, please call one of GTE's Customer Contact Centers listed above.

How will my business be listed in the Yellow Pages?

Every business receives a free Yellow Pages listing, under the category of its choice. You can enhance this basic listing with Yellow Pages advertising. Why advertise? Research indicates that consumers refer to Yellow Pages ads more often than to basic listings — 62% of Yellow Pages references are to ads. *(Source: Yellow Pages Publishers Association.)* There's lots of other research to support the effectiveness of advertising in GTE's Yellow Pages. For more information, call a GTE Yellow Pages customer service representative, toll-free, at **1-800-445-9050.**

How can I get extra phone books or phone books from other areas?

If you need additional copies of this directory, or if you need directories from other communities, please call the Directory Order Center, toll-free,
1-800-888-8448.

What emergency procedures should I know?

Emergencies and disasters can occur anytime, anywhere. Some are primarily seasonal and allow for certain preparations; others occur without warning. Planning ahead and making provisions for your family's needs can make a big difference in your ability to cope with emergencies. Detailed information on emergency preparedness is available from the American Red Cross and city and county agencies.

FLOODS AND FLASH FLOODS:

Floods claim an average of 263 lives every year. Flood waters only one foot deep can sweep you off your feet. If you live in a flood-prone area, it is important to be prepared in case flooding does occur. Determine your nearest safe area above flood waters. Develop an evacuation plan. Remember that many roads, bridges, and existing drainages may be swept away by flood waters.

A flood WARNING means flooding is occurring or will occur soon. If the National Weather Service issues a flood WARNING for your area, you should:

1. Turn off your utilities if your home is likely to be flooded.
2. Fill your car's gas tank.
3. Evacuate if you are told to do so. *(See the following section on evacuation procedures.)*

Flash floods are rapidly developing floods that can happen with little or no warning. Flash floods are most often caused by intense rainfall, severe thunderstorms, or breaks in a dam, levee, or dike. A flash flood WARNING means you may have only a very short time to escape. A flash flood can happen so rapidly that you may not even get a warning. If the National Weather Service issues a flash flood WARNING for your area, or if you suspect a flash flood is occurring, you should:

1. Leave low-lying areas immediately.
2. If you are driving, stay away from creeks and open ditches.

If your car stalls in rapidly rising waters, abandon it IMMEDIATELY and climb to higher ground. The rushing waters from floods and flash floods are extremely dangerous. Remember:

1. Police barricades are there for your protection. DO NOT DRIVE AROUND THEM.
2. Flood waters covering roads and bridges have more force and power than you think.
3. Walking or driving through flood waters is the most dangerous thing you can do.

EVACUATION PROCEDURES:

You will receive instructions to evacuate the area in one of the following ways:

1. The Emergency Broadcast Station (EBS).
2. A uniformed agent of law enforcement or the fire service will contact you.
3. Mobile sirens, police, fire or other PA systems will be used to alert you.

Shelters will be available for residents who cannot stay with friends or relatives in other areas. The Red Cross has prearranged shelter sites throughout the community. If shelters need to be opened for emergency housing, listen to the EBS for the exact locations.

If there is time, take a moment to gather a few important items you may need. Do this as quickly as possible and leave as soon as you can.

IF YOU CAN, BRING THESE ITEMS WITH YOU:

1. Prescription drugs
2. Food — if needed for a special diet
3. Eyeglasses or contact lenses
4. Change of clothing
5. Personal items — toilet articles, documents, photo albums
6. Bedding — sleeping bag, pillow, blankets
7. Baby or child supplies — diapers, food, toys
8. Money, credit cards, checks
9. Proper identification
10. Pets — provisions will be made for pets. They will stay in separate housing, but bring food if possible.

TORNADOES:

If you see or hear a tornado, seek shelter immediately. Bring a portable radio for news and weather updates. Lie flat and protect your head and eyes.

Here are some guidelines for seeking shelter:

In homes: Stay away from windows, doors, and outside walls. Go to the basement. If the house doesn't have a basement, go to a first-floor bathroom, closet, or another room at the center of the house. If possible, get under heavy furniture or cover your head with blankets or pillows.

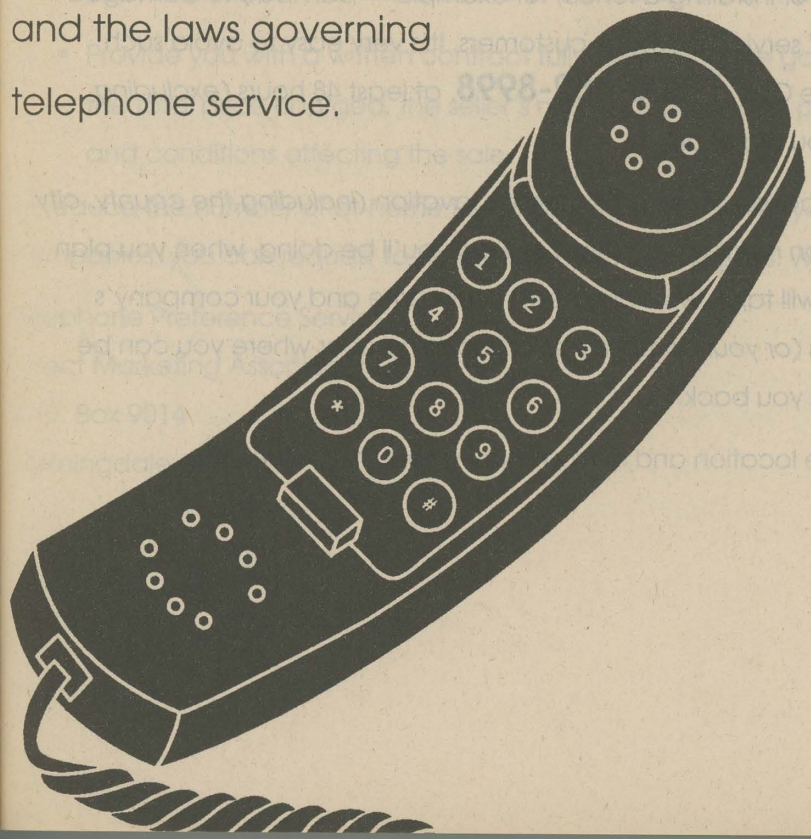
In schools: Stay away from windows and large areas such as auditoriums and gymnasiums. Go to the basement. If there is no basement, go to a small interior room or a hallway on the lowest floor.

In public buildings: Stay away from windows. Don't go to your car. Go to a designated shelter area or to an interior hallway or a small room on the lowest floor.

In mobile homes: Get out immediately. If there isn't a reinforced building or underground shelter nearby, take cover in a ditch or valley.

What Else Should I Know?

Have you ever wondered if it's safe to talk on the phone during a storm? Or, maybe a telephone solicitor calls just as you are sitting down to dinner. What laws must he follow? In this section we'll provide helpful facts about these topics, plus others, including "900" and "976" information services and the laws governing telephone service.



What do I need to know about telephone safety?

There are *three telephone safety rules* that you should keep in mind at all times — even when using cordless and cellular phones:

1. **DO NOT USE THE TELEPHONE NEAR WATER.** For example, it is unsafe to use the telephone while you are bathing, washing dishes, or in a swimming pool. Contact with water could cause electrical shock.
2. **DO NOT USE YOUR TELEPHONE TO REPORT A GAS LEAK.** Telephones contain electrical contacts that could generate a tiny spark when you lift the handset. While unlikely, this spark could trigger an explosion if gas is present.

3. **AVOID USING THE TELEPHONE DURING AN ELECTRICAL STORM.**

   Although GTE uses protective measures to limit abnormal electrical surges from entering your home, absolute protection is impossible. There is a remote risk that you could receive a dangerous electrical shock from lightning while using the telephone during an electrical storm.

Your telephone equipment can be protected against a voltage surge just as electrical equipment is protected from power surges. Primary overvoltage protection is provided by GTE. *(Secondary overvoltage protection against damage to equipment such as modems and answering machines is your responsibility.)* For more information about voltage surge protection, contact the **GTE Phone Mart** or call GTE's Customer Contact Center.

How can I help protect underground telephone cable?

You play a crucial role in helping us protect underground cable. Any household chore that involves digging — planting a tree or installing a fence, for example — can lead to damaged cable, which results in disruption of service for many customers. It's very easy to avoid such problems. Simply call Arkansas One Call, **1-800-482-8998**, at least 48 hours (*excluding weekends and holidays*) before you dig or drill.

Be prepared to tell us the exact location of the proposed excavation *(including the county, city or township, section and 1/4 section number)*, the type of work you'll be doing, when you plan to start, and how long you think it will take. We'll also need your name and your company's name *(if applicable)*, your address (*or your company's*), a phone number where you can be reached, and the best time to call you back.

Following your call, we'll check the location and let you know where the cables are.

What should I know about telephone solicitors?

A telephone solicitor is a person who calls to ask you to buy something or to make a donation. State and federal laws require that telephone solicitors who call residences must: identify themselves and the business they represent by name; identify the purpose of the call; and provide a telephone number where the solicitor or the company can be reached. Additionally, a telephone solicitor can't legally call a residence before 8 a.m. or after 9 p.m.

Automatic dialing announcing devices must disconnect from your line within 30 seconds of the termination of the call.

Keep in mind these requirements do not apply to telephone solicitations made at your request, solicitations made in connection with an existing debt or contract, or calls from a telephone solicitor with whom you have a prior or existing business relationship.

If you use a credit card to purchase goods or services from a telephone solicitor, the seller must *(unless the seller is a public charity, an organization exempt from federal income tax under the Internal Revenue Code 501 (c) (3))*:

- Offer a full refund for the return of undamaged and unused goods within seven days after you receive the goods or services *(the seller must process the refund within 30 days after you return either the merchandise or cancel an order that you have not received)* or
- Provide you with a written contract fully describing the goods and services being offered, the total price charged, the seller's name, address, and phone number, and any terms and conditions affecting the sale.

To reduce the number of at-home telephone solicitation calls you receive from national companies, you can request to be removed from calling lists. Write to:

Telephone Preference Service
Direct Marketing Association
P. O. Box 9014
Farmingdale, NY 11735

What can I do about threatening, obscene, or nuisance phone calls?

IF YOU RECEIVE OBSCENE OR NUISANCE CALLS, FOLLOW THESE SUGGESTIONS:

- Hang up
- Give no information
- Advise children to do the same

Making threatening, obscene, or nuisance calls is a violation of state and federal laws. If you receive a threatening call, report it immediately to the police. Many of GTE's optional phone services — including Calling Number ID, Call Block, and Call Tracing — are available in some areas and can help prevent annoying calls. Often, changing your telephone number will resolve the problem.

Call a GTE customer service representative, toll-free, at **1-800-483-4400** for more information.

If calls continue, call the GTE Nuisance Call Bureau at **1-800-257-2969.**

Can phone calls be recorded?

It is illegal to record a telephone conversation without the consent of both parties prior to the recording of the conversation. Prior consent must be obtained in writing or be part of, and obtained at the start of the recording.

What are "900" and "976" numbers?

Telephone numbers beginning with either "900" or "976" provide information to callers at a cost-per-call basis. Examples could be road reports, dial-a-joke, horoscopes, stock market reports, or ski conditions. You will be charged for these calls at the rate established by the information provider. GTE bills you, on behalf of the provider, for these charges.

If you don't want anyone in your home making "900" or "976" calls, call a GTE customer service representative, toll-free, at **1-800-483-4400.** The first time you request blocking of "900" or "976"number calls, there is no charge. If you cancel the blocking and then request to have it reinstated, you may be charged.

CUSTOMER BILLING RIGHTS FOR 900 AND 976 NUMBER CALLS

GTE provides billing services for long-distance companies and companies offering 900 or 976 number information services. The federal Telephone Disclosure and Dispute Resolution Act gives you the following rights regarding 900/976 number calls and telephone-billed purchases:

- You do not have to pay for calls to 900/976 numbers that do not follow federal regulations.
- You have the right to question charges for GTE billed telephone purchases or calls to 900/976 number information service providers. This process begins when you call or write GTE or your long-distance carrier, using telephone numbers listed on your long-distance bill page within 60 days of receiving the statement showing the charges in question.
- Should you question charges on your telephone bill, GTE or your long-distance carrier must respond to your request within 40 days unless the dispute is resolved within that time.
- If a billing error has occurred, GTE or your long-distance carrier must correct the error and notify you of the correction. Your account will be credited for the disputed amount pending investigation. The company providing the service, however, may attempt to collect the disputed amount even in cases where a billing error has occurred. GTE or your long-distance carrier will provide you with the name, telephone number and address of that company so you can contact them directly.
- If there is no billing error, GTE or your long-distance carrier will provide you a written explanation of why no error was found and, upon request, provide you with documentary evidence of why you were billed for the charges in question. You will have a minimum of ten days to pay the disputed amount. Failure to pay such amount may be reported to a credit reporting agency or subject to collection. Involuntary blocking may also be imposed so that you will be unable to make 900/976 calls from your telephone.
- Neither your long-distance nor your local telephone service may be disconnected if you choose to withhold payment for telephone-billed purchases or calls to 900/976 numbers. However, you must continue to pay for all charges on your bill that are not part of the disputed amount.

- If GTE or your long-distance carrier fails to follow the billing and collection procedures mandated by federal regulations, any disputed amount up to $50 may be forfeited to the customer.

Should you have questions regarding any of this, please call GTE or your long-distance carrier using the telephone numbers listed on your bill.

What other laws and practices govern telephone service?

Throughout the Info Pages, we've told you many of the rules and regulations that govern telephone service. Here are some other important things you should know:

GTE provides telephone service without regard to race, nationality, color, religion, sex, marital status, or disabilities. GTE is regulated by the Arkansas Public Service Commission, which requires GTE to provide the consumer information found in the Info Pages. A complete copy of rules and regulations governing telephone service is available at the Arkansas Public Service Commission's state office and the GTE Phone Mart. To reach the commission, you may write or call:

Arkansas Public Service Commission
1000 Center Street
P. O. Box 400
Little Rock, AR 72202
682-1718 or 1-800-482-1164

The rates and practices for telephone service now in effect are subject to change. A schedule of current rates is available at the Arkansas Public Service Commission's state office and the GTE Phone Mart. All telephone numbers are owned by your local telephone company, which has the right to change any number as may be required.

No automatic dialing announcing device can be connected to GTE's network unless it complies with Federal Communications Commission (FCC) rules. Autodialers used to transmit artificial or prerecorded voice messages should automatically release the called party's line within 5 seconds of that party's hang-up signal reaching the caller's dialing system. For additional information, call GTE's Customer Contact Center, toll-free, at **1-800-483-5400.**

For your protection, GTE is able to detect fraudulent calls. Defrauding or attempting to defraud a telephone company of its lawful charges is prohibited by state and federal laws.

When you call an "800/888" or "900" telephone number, the telephone number you're calling from may be transmitted to the company you called. Your number could be available to that company's service representative before your call is answered.

Intentional and/or willful damage or destruction to coin telephones is classified as criminal mischief. Punishment could include a prison sentence of two-to-ten years and/or a fine up to $10,000.

Applications for party line use are accepted by GTE with the understanding that each customer will not interfere with the other's fair and equal use. You are required by law to give up the use of a party line in an emergency.

When you call 911, your phone number is either displayed at the answering center or your call is traced. This enables emergency teams to locate you even if the call gets interrupted before you can give your location. If you want to keep your number private, call the seven-digit number listed for your locality's police/sheriff department in the White Pages of this directory.

If you have a problem reaching an emergency number, dial "0" operator. Tell the operator the number you are trying to reach and/or the type of help you need. Also, be prepared to provide the number from which you are calling, the community name, and the street address.

How Do I Use My Special Features?

GTE offers many services that can make your telephone work harder and smarter for you. Many of these services are "SmartCall Services." You'll learn all about our special services and how to use them. You can also get acquainted with some other helpful services we offer for your home and business.

HERE'S WHERE TO LOOK:

Anonymous Call Rejection	46	Smart Ring®	52
Automatic Busy Redial	46	Special Call Acceptance	53
Automatic Call Return	47	Special Call Forwarding	53
Call Block	48	Special Call Waiting	54
Call Forwarding	49	Speed Calling 8	55
Call Tracing	49	Speed Calling 30	55
Call Waiting	50	Three-Way Calling	56
Cancel Call Waiting	50	VIP Alert	57
Calling Number ID/Caller ID	51	Voice Messaging	57
Cancel Calling Number Delivery	51		

To order special services, call:

- Residential Customers
  1-800-483-4400.
- Business Customers
  1-800-483-5400.

WE'RE AT YOUR CALL!

- All customers with Text Telephones (TTYs) call GTE through the Arkansas Relay Service. *(Please see pages 26-27 for calling instructions.)*

Do I need a special phone to use my SmartCall Services?

No. SmartCall Services will work with touch call or rotary dial telephones. ***(Note:** In addition to your regular phone, you'll need a special display device to use Caller ID services.)*

The instructions in this section are for touch call phones — phones with a push-button pad, which is called "the touch pad." *(Modifying these instructions for rotary phones is explained below.)*

Using your SmartCall Services is even easier with a GTE screen-display phone.

Please note: Not all services are available in all areas.

HERE ARE SOME BASIC TERMS THAT YOU NEED TO KNOW TO USE YOUR SMARTCALL SERVICES:

STAR AND POUND KEYS — When using some of your SmartCall features, you will be instructed to press either the *"star"* (*) or the *"pound"* (#) key. These keys are located to the left and to the right of the (0) on the touch pad.

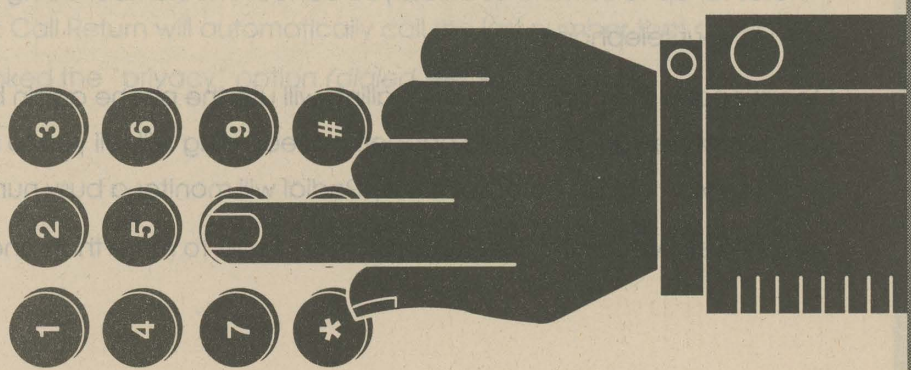
HOOKSWITCH — The button that disconnects your call when you hang up the telephone is the hookswitch. When the instructions read, *"press and release the hookswitch,"* hold the hookswitch down for only a second – about the time it takes to say *"one thousand and one."* If your phone has a *"FLASH"* button, you can use it instead of the hookswitch.

PULSE/TONE SWITCH — Some touch call telephones have a switch that allows them to be used with either Touch Call or rotary service. Place the switch on *"tone."*

Many of the services provide recorded instructions that guide you through using the services. You may interrupt the voice recording at any time by entering the required code or telephone number.

If you are using a rotary phone with your SmartCall Services, you will need to modify the SmartCall instructions as follows:

Dial (1) (1) instead of pressing (*). Wait four seconds instead of pressing (#).
For example, if the instructions read "press (*) (7) (0)," dial (1) (1) (7) (0).
When the instructions read "press (7) (0) (#)," dial (7) (0) and wait 4 seconds.



Please Note: Not all services are available in all areas. Please call 1-800-483-4400 for more information about the services in your area.

What are the details of my SmartCall Services?

• Anonymous Call Rejection

Anonymous Call Rejection is a service that blocks calls from people that have activated the Cancel Calling Number Delivery feature. A message will instruct such callers to hang up, deactivate the privacy feature, and call again.

TO USE:

1. Lift the handset and listen for the dial tone.
2. Press * 7 7.
3. You will hear a recording or confirmation tone indicating that Anonymous Call Rejection is turned on.

TO TURN OFF:

1. Lift the handset and listen for the dial tone.
2. Press * 8 7.
3. You will hear a recording or confirmation tone indicating that Anonymous Call Rejection is turned off.

• Automatic Busy Redial

Automatic Busy Redial automatically stores and redials the last number you dialed. If the number is busy, Automatic Busy Redial will monitor it and ring you back when the number is available. Automatic Busy Redial works on calls made to numbers within your defined area, which is usually your local calling area but may also include long-distance calls.

Your telephone will ring with a distinctive tone when the number you called is no longer busy. If you don't answer your phone by the third series of rings, Automatic Busy Redial will pause and try to complete your call 5 minutes later. Automatic Busy Redial will ring your phone every 5 minutes for up to 30 minutes unless you cancel. The number being called will not ring until you pick up your telephone.

Occasionally, the person you are calling will use the phone again before Automatic Busy Redial can complete your call. If this happens, a recording will tell you to start the Automatic Busy Redial service again. Automatic Busy Redial will monitor a busy number for one-half hour.

You can use Automatic Busy Redial to return calls to more than one busy number at a time.

Please Note: Not all services are available in all areas. Please call 1-800-483-4400 for more information about the services in your area.

TO USE AFTER DIALING A BUSY NUMBER:

1. Press and release the hookswitch. Listen for the dial tone.
2. Press * 6 6.
3. You will hear two normal ringing tones or an announcement. If the number you called is still busy, a recording will tell you that your call is next in line.
4. Hang up.
5. When the number you called is no longer busy, your telephone will ring with a series of short-short-long rings.
6. Lift the handset and the call will be connected. You will hear a normal ringing tone.

TO TURN OFF:

1. Lift the handset and listen for the dial tone.
2. Press * 8 6.

• Automatic Call Return

Automatic Call Return automatically stores and redials the number of the last person who called you. It can be used to return a call, whether you answered the call or not. ***(Note:** Automatic Call Return won't work if the person who called you activated the "privacy" option by dialing * 6 7.)*

If the stored number is busy, Automatic Call Return will place your call next in line. Your phone will ring with a series of short-short-long rings when the number you called is no longer busy.

TO USE:

1. Lift the handset and listen for the dial tone.
2. Press * 6 9.
3. A recording will announce the telephone number of the last caller. You may choose to return the call or hang up.
4. Press 1 and Automatic Call Return will automatically call the last number that called you, unless the caller invoked the "privacy" option *(dialed * 6 7).*

Please Note: Not all services are available in all areas. Please call 1-800-483-4400 for more information about the services in your area.

TO TURN OFF:

1. Lift the handset and listen for the dial tone.
2. Press * 8 9.

If the last calling number was a long-distance call or was outside your local calling area, Automatic Call Return may not be able to return the call. You will hear either a recording or a rapid busy signal indicating that a call to the last calling number cannot be completed by Automatic Call Return.

If you also have Call Waiting, you have two choices for responding to a second incoming call. You can use Automatic Call Return to call back later, or you can use Call Waiting to answer the call right away.

• Call Block

Call Block automatically blocks incoming calls from any of the numbers — up to a maximum of 12 — on a Call Block list you create. A blocked caller will hear a recording saying you are not presently accepting calls.

Calls made to you from outside your local calling area or through the operator cannot be blocked. This is for your protection in case of an emergency.

TO TURN ON/OFF OR ADD NUMBERS TO YOUR CALL BLOCK LIST:

1. Lift the handset and listen for the dial tone.
2. Press * 6 0.
3. Listen to the recording for instructions on how to turn your Call Block service on or off, and how to change or review your Call Block list. The phone numbers you enter on your Call Block list will be repeated to you.
4. You may add the number of the last person who called you to your Call Block list by following the recorded instructions. If the last person who called invoked the "privacy" option (dialed * 6 7), you'll hear a recording telling you the number is a private number. If your list becomes full, erase one number so you can add another.

Please Note: Not all services are available in all areas. Please call 1-800-483-4400 for more information about the services in your area.

• Call Forwarding

Call Forwarding lets you forward ALL your incoming calls to another phone number. You can still make calls when Call Forwarding is turned on. In most areas, a brief tone followed by a dial tone indicates Call Forwarding is on. You will hear this tone until you turn off Call Forwarding. Calls cannot be answered at your phone when Call Forwarding is on. To remind you that Call Forwarding is on, you'll hear one short ring each time a call forwards. *(If you forward your calls to a long-distance number, long-distance charges will apply.)*

TO USE:

1. Lift the handset and listen for the dial tone.
2. Press 7 2 #.
3. When you hear a second dial tone, call the number you want your calls forwarded to.
4. If the *"forwarded-to"* phone is answered, Call Forwarding is on. *(In some areas, the number you are forwarding your calls to will not ring. Instead, you will hear a dial tone to indicate that you have turned on Call Forwarding.)*
5. If you receive a busy signal or no answer, hang-up and repeat the procedure.
6. You will hear two short tones to verify that you have turned Call Forwarding on.

TO TURN OFF:

1. Press 7 3 #.
2. Two short tones indicate that you have turned Call Forwarding off. You can confirm that Call Forwarding is on by pressing 7 2 #. You will hear a rapid busy tone if Call Forwarding is on. If you hear a normal dial tone, Call Forwarding is off.

• Call Tracing

Call Tracing service allows you to trace threatening or harassing phone calls from within your local calling area, any time, day or night. The record of the traced call will be stored at GTE's telephone office. A recording will tell you whether the call trace has been successfully completed. **NOTE:** GTE can only release records of a call trace to a law enforcement agency.

TO USE AFTER RECEIVING A HARASSING CALL:

1. Hang up.
2. Lift the handset and listen for the dial tone.

Please Note: Not all services are available in all areas. Please call 1-800-483-4400 for more information about the services in your area.

3. Press * 5 7.
4. To take legal action, record the exact date and time of the call and contact GTE within 10 days at the number provided by the recording. If you don't contact GTE within 10 days, the call record will be removed from the system. Call your local law enforcement agency if the situation is an emergency.

• Call Waiting

Call Waiting allows you to answer a second call when you are already on the line.

TO USE:

1. If you are on the phone and receive a second call, the Call Waiting tone will alert you that a second person is calling. The person calling will hear normal ringing until you answer.
2. Press and release the hookswitch to put the first person on hold to answer the second call.
3. To return to the first call and put the second call on hold, press and release the hookswitch again. You can alternate between calls as often as necessary.

NOTE: Call Waiting and computer modems do not mix. The Call Waiting tone will interrupt on-line sessions resulting in disconnection and lost data. To prevent this you may want to consider adding a second phone line or subscribing to Cancel Call Waiting.

• Cancel Call Waiting

Cancel Call Waiting disables Call Waiting for the call you are on or for a call you are about to make. It works only for the length of one call. When you hang up, Call Waiting returns automatically to your phone. In some areas you can only use Cancel Call Waiting before placing a call; if you try to use Cancel Call Waiting during a call you will hear a rapid busy signal.

TO USE BEFORE PLACING A CALL:

1. Lift the handset and listen for the dial tone.
2. Press * 7 0.
3. Listen for three brief tones, followed by a normal dial tone.
4. Dial the telephone number you are calling.

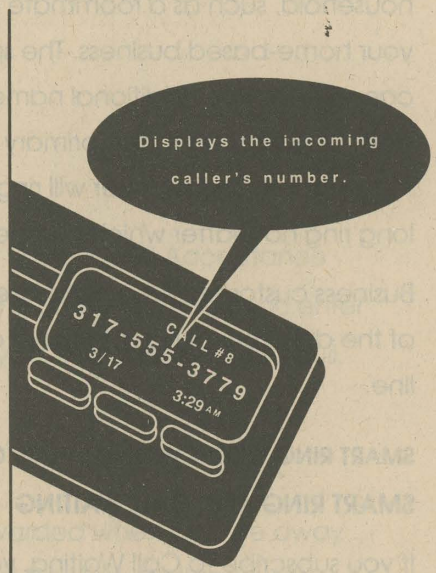
Please Note: Not all services are available in all areas. Please call 1-800-483-4400 for more information about the services in your area.

TO USE DURING A CALL:

1. Press and release the hookswitch.
2. Press * 7 0.
3. If you aren't automatically reconnected to your call, press the hookswitch to reconnect.

NOTE: In some areas, Cancel Call Waiting is activated by pressing 7 0 #. In these areas you will hear a rapid busy signal if you press * 7 0.

• Calling Number ID/Caller ID



Calling Number ID lets you see the number of the person calling you. With Caller ID, you'll see both the name and the number of the person calling you. The date and time of day each call was received can also be displayed. You need to have a Caller ID display device to use either service. For information on rental or purchase of display devices, call GTE's Customer Contact Center or the **GTE Phone Mart.**

Both services can usually display phone numbers that are outside your local calling area, and all local area numbers should be displayed unless the caller has blocked his number. If the number is not available, the screen will show "Out-of-Area" or "Private Number" instead of the phone number.

If you have Call Waiting, Calling Number ID or Caller ID, the phone numbers of waiting calls are not displayed, because the unit must hear one ring before it can display a number.

• Cancel Calling Number Delivery

Cancel Calling Number Delivery — Per Call allows you to prevent your telephone number from being displayed on Caller ID equipment.

TO USE:

1. Lift the handset and listen for the dial tone.
2. Press * 6 7.

Please Note: Not all services are available in all areas. Please call 1-800-483-4400 for more information about the services in your area.

3. Listen for the confirmation tone, followed by the dial tone.
4. Place the call. Cancel Calling Number Delivery — Per Call works one call at a time. When you hang up, it's no longer in effect.

• Smart Ring

Smart Ring gives you two phone numbers for your single phone line, and each number has its own special ring. You can assign one number to yourself and one number to others in your household, such as a roommate or teenagers. Or, assign one for personal calls and the other for your home-based business. The special ring will tell you who the call is for before you answer. You can even list the additional name and phone number in your local directory, at no additional cost. Calls placed to the primary number will ring in the usual way — one long ring. Calls placed to the Smart Ring number will ring with two short rings. The person calling you hears the usual long ring no matter which number is called.

Business customers who purchase Smart Ring may list both numbers in the Yellow Pages section of the directory at no additional cost. Business directory listings cannot be used on a residential line.

SMART RING WORKS WITH ALL YOUR OTHER SMARTCALL SERVICES. HERE'S HOW:

SMART RING AND CALL WAITING:

If you subscribe to Call Waiting, you'll have Call Waiting on both lines. You'll be able to tell which number the person waiting has called by the number of tones you hear. If the caller dials your primary number, you'll hear the normal Call Waiting tone. If the caller has dialed your Smart Ring number, you'll hear two Call Waiting tones. Callers to either number hear normal ringing until the call is answered. *(Call Waiting tones for VIP Alert and Smart Ring are the same. You won't be able to tell them apart.)*

SMART RING AND CANCEL CALL WAITING: When you cancel your Call Waiting feature and are on a call, additional callers to either your primary or Smart Ring number will hear a normal busy signal. Call Waiting automatically returns to both numbers when you hang up.

SMART RING AND CALL FORWARDING: If you forward your calls, all incoming calls will forward.

SMART RING AND ANY SERVICE THAT USES A LIST YOU CREATED *(Call Block, Speed Calling 8 or 30, Special Call Acceptance, Special Call Forwarding, Special Call Waiting and VIP Alert):* The list is shared by the primary number and the Smart Ring number. Calls to either are treated the same.

Please Note: Not all services are available in all areas. Please call 1-800-483-4400 for more information about the services in your area.

• Special Call Acceptance

Special Call Acceptance automatically restricts your incoming calls to only the numbers on the Special Call Acceptance list you create — up to 12 numbers from your defined area, which is usually your local calling area but may also include long-distance calls.

When Special Call Acceptance is turned on, all other callers hear a recording saying you are not presently accepting calls. In some areas, calls from outside your local calling area and calls made with operator assistance will ring your telephone. If Special Call Acceptance is on and no numbers are on your list, your feature will automatically turn off.

TO USE:

1. Lift the handset and listen for the dial tone.
2. Press * 6 4.
3. Listen to the recording for instructions on how to turn your Special Call Acceptance service on or off, and how to change or review your list. The phone numbers you enter on your Special Call Acceptance list will be repeated to you. If your list becomes full, erase one number so you can add another.

• Special Call Forwarding

Special Call Forwarding lets you choose the calls that will be forwarded when you are away from your home or office. Only calls from numbers on your Special Call Forwarding list will forward. You can store up to 12 phone numbers from your defined area, which is usually your local calling area but may also include long-distance calls, on the Special Call Forwarding list.

You may forward calls to any local or long-distance number. If you forward to a long-distance number, you'll be charged for each completed call.

When Special Call Forwarding is on and a call forwards, you cannot answer the call at your telephone. The number to which you have forwarded your calls will ring normally. Calls from numbers that aren't on your Special Call Forwarding list will ring at your telephone normally and can be answered. If you have regular Call Forwarding, and it's also turned on, ALL calls to you — not just those on your Special Call Forwarding list — will be forwarded to the number you have chosen as the Call Forwarding destination.

Please Note: Not all services are available in all areas. Please call 1-800-483-4400 for more information about the services in your area

TO USE:

1. Lift the handset and listen for the dial tone.
2. Press * 6 3.
3. Listen to the recording for instructions on how to turn your Special Call Forwarding service on or off, and how to change or review your list. The phone numbers you enter on your Special Call Forwarding list will be repeated to you. If your list becomes full, erase one number so you can add another.

• Special Call Waiting

Special Call Waiting allows you to create a list of up to 12 numbers from your defined area, which is usually your local calling area but may also include long distance calls. You'll hear the Call Waiting tone only from the numbers on your Special Call Waiting list. All other callers will hear a busy signal. You cannot subscribe to Call Waiting and Special Call Waiting at the same time because you would hear the Call Waiting tone for all incoming calls. There'd be no way to tell which were from the numbers on your Special Call Waiting list.

TO USE:

1. Lift the handset and listen for the dial tone.
2. Press * 6 2.
3. Listen to the recording for instructions on how to turn your Special Call Waiting service on or off, and how to change or review your list. The phone numbers you enter on your Special Call Waiting list will be repeated to you. If your list becomes full, erase one number so you can add another.

WHEN SPECIAL CALL WAITING IS ON:

1. When you are on a call and you receive a second call from one of the numbers on your list, you'll hear several brief Call Waiting tones. The person calling will hear normal ringing until you answer.
2. Press and release the hookswitch to put the first person on hold to answer the second call.
3. To return to the first call and put the second call on hold, press and release the hookswitch again. You can alternate between calls as often as necessary.

Please Note: Not all services are available in all areas. Please call 1-800-483-4400 for more information about the services in your area.

• Speed Calling 8

Speed Calling 8 lets you create a list of up to 8 phone numbers that you can dial using a one-digit code. When saving a long-distance number, enter a "1" and the area code followed by the number. The maximum number of digits that you can program for each phone number is 28.

TO SAVE SPEED CALLING NUMBERS:

1. Lift the handset and listen for the dial tone.
2. Press 7 4 #.
3. Wait for a second dial tone. Dial the one-digit code you want to assign and the complete telephone number you want the code to represent.
4. Listen for two brief tones to confirm that your number has been assigned. Hang up or wait for dial tone.
5. Repeat steps 3 through 5 to add each number on your Speed Calling list or to change an existing number.

TO CALL A SPEED CALLING NUMBER:

1. Dial the assigned one-digit code for the number you want to call.
2. Press #. The number will be dialed for you.

• Speed Calling 30

Speed Calling 30 lets you create a list of up to 30 phone numbers that you can dial using a two-digit code. When saving a long-distance number, enter a "1" and the area code followed by the number. The maximum number of digits that you can program for each phone number is 28.

TO SAVE SPEED CALLING NUMBERS:

1. Lift the handset and listen for the dial tone.
2. Press 7 5 #.

Please Note: Not all services are available in all areas. Please call 1-800-483-4400 for more information about the services in your area.

3. Wait for a second dial tone. Dial the two-digit code you want to assign, from 20 through 49, and the complete telephone number you want the code to represent.
4. Listen for two brief tones to confirm that your number has been assigned. Hang up or wait for dial tone.
5. Repeat steps 3 through 5 to add each number on your Speed Calling list, or to change an existing number.

TO CALL A SPEED CALLING NUMBER:

1. Dial the assigned code for the number you want to call.
2. Press (#). The number will be dialed for you.

• Three-Way Calling

Three-Way Calling lets three people at different numbers talk together at the same time. Whether you made or received the initial call, you may use Three-Way Calling to add a third person to a call. When you hang up, the other two people will be disconnected. When the Three-Way Call includes long-distance, you pay only for the call(s) you make. *(Call Waiting does not work during a Three-Way Call.)*

TO ADD THE THIRD PERSON TO YOUR CALL:

1. Press and release the hookswitch to put the first caller on hold.
2. Listen for three tones followed by the dial tone.
3. Dial the number of the third person. When he or she answers, only the two of you are connected. You may talk privately before bringing the person on hold back into the conversation. If you receive no answer or a busy signal, press and release the hookswitch twice to return to the person who is on hold.
4. To bring the person on hold back into the conversation and complete the Three-Way Call, press the hookswitch for one second and all three of you should be connected.
5. To end the Three-Way Call, have either person hang up. You can continue a two-way call.

Please Note: Not all services are available in all areas. Please call 1-800-483-4400 for more information about the services in your area.

• VIP Alert

VIP Alert will automatically give you a special ring — usually short-long-short — when you receive a call from any of the phone numbers you have entered on your VIP Alert screening list. You can enter up to 12 different numbers from your defined area, which is usually your local calling area but may also include long-distance calls, on your VIP Alert screening list.

TO USE:

1. Lift the handset and listen for the dial tone.
2. Press * 6 1.
3. Listen to the recording for instructions on how to turn your screening list on or off, and how to change or review your list. The phone numbers you enter on your VIP Alert list will be repeated to you. If your list becomes full, erase one number so you can add another.

• Voice Messaging

GTE Voice Messaging, for businesses, and Personal Secretary service for residences, are GTE's multifeatured voice messaging services. GTE Personal Secretary/Voice Messaging answers incoming calls when you can't. If no one is on the phone, callers hear approximately four rings before getting a professional standard greeting or your personal greeting. If you are on the line, callers will hear one ring before receiving your greeting.

To ensure reliability, GTE monitors the service 24 hours a day, seven days a week. There is even an 800 number if you need help!

- Business Customers **1-800-483-4357.**
- Residential Customers **1-800-483-1000.**

You will receive a user guide in three to four days after signing up for GTE Voice Messaging/Personal Secretary service. However, you can get started without the guide. Here's how:

GTE VOICE MESSAGING

(From your office telephone)

To Record Your Personal Greeting:

1. Dial your Access Number. _____
   (You were given your access number when you signed up)

GTE PERSONAL SECRETARY

(From your home telephone)

To Record Your Personal Greeting:

1. Dial your Access Number. _____
   (You were given your access number when you signed up)

Please Note: Not all services are available in all areas. Please call 1-800-483-4400 for more information about the services in your area.

Allows you flexibility in message delivery.

OTHER INCLUDED FEATURES:

A. Wake-up Service:
Program phone for a daily wake-up call.

B. Reminder Service:
Leave yourself reminder messages for future delivery up to a year in advance.

What other special services are available from GTE?

GTE offers many telephone service enhancements for your home and office. The following can be added to either business or residential service.

To order special services, call:

- Residential Customers **1-800-483-4400.**
- Business Customers **1-800-483-5400.**
- All customers with Text Telephones (TTYs) call GTE through the Arkansas Relay Service. *(Please see pages 26-27 for calling instructions.)*

• Calling Cards

With a GTE Calling Card, you can place phone calls from any telephone and have the charges appear on your monthly bill. GTE Calling Card calls cost less than other operator-assisted calls. If GTE provides your telephone service, there is no charge for the card.

Please Note: Not all services are available in all areas. Please call 1-800-483-4400 for more information about the services in your area.

• Maintenance Packages

When you subscribe to the optional Lineskeeper service, GTE will repair all your telephone jacks and the wiring inside your home or business. You pay a modest monthly fee. If a problem does occur, a GTE technician will fix it for you, and you won't have a bill for the repair.

Lineskeeper subscribers also receive discounted labor rates on service to add new wiring and jacks or to replace non-standard wiring. *(Non-standard wiring, which doesn't meet industry standards or National Electrical Code Material Standards, simply may not be repairable.)*

Also available is Lineskeeper PLUS® service, which offers basic Lineskeeper service plus the use of a loaner telephone in case the phone you own is broken.

We're At Your Call!

For GTE's complete service package, choose TELEPHONE AND LINE CARE. It gives you both a GTE rental phone and Lineskeeper service. For details call **1-800-483-4852.**

• Message Rate Service

Are you looking for a way to save money on your basic local telephone service? If you make a limited number of phone calls each month, look into Message Rate Service. It's a money-saver for both business and residential customers.

• On-The-Move Message

If you've changed your telephone number, you can request On-The-Move Message. When you subscribe to On-The-Move Message, an operator will personally refer your calls to your new number. You can even write the message to be read by our operators.

• Custom Code Restriction

It's possible that someone would use your telephone to place chargeable calls without your knowledge or permission. *(For example, long-distance calls or calls to "900" or "976" numbers.)*

You can avoid phone charges you haven't authorized if you subscribe to Custom Code Restriction. There are three service options with Custom Code Restriction: restriction of one-plus and zero-plus long distance calls; restriction of one-plus long-distance dialing only; or, restriction of 1 + 900 and 1 + 976 numbers only.

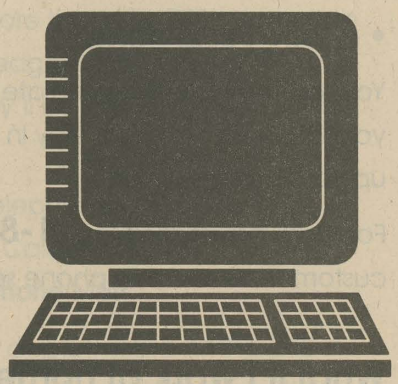
Please Note: Not all services are available in all areas. Please call 1-800-483-5400 for more information about the services in your area.

• Conference Calling

When you need to talk to people in different places at the same time, you may want to make a conference call. You'll find service providers in the Yellow Pages under Teleconference Service and Telephone Communications Service.

• Dial Datalink®

Do you use a personal computer to transmit or receive information from remote locations? Sign up for Dial Datalink service, and GTE will ensure that your existing telephone line always meets the rigid technical specifications needed for reliable high-quality data transmission.



• Toll-Free Service

GTE's Toll-Free Service makes it easy for out-of-town customers — or friends and family — to call you. It's simply a cost-effective way to allow callers outside of your local calling area to call you, at no cost to them. Our Toll-Free Service is particularly effective for companies that want to increase their phone order business or expand their trading area.

• Paging Services

To help you stay in touch with your family, business associates, and customers, GTE offers a full line of competitively priced pagers with local, regional, and national coverage. Quantity discounts are available. Contact a GTE customer service representative at **1-800-483-7243** for more information.

What special services are available for my business?

Plenty. For example, GTE consultants can develop advanced communications programs for your company. We have the resources to meet your present and future communications needs — from foreign exchange lines, which give you a presence in distant markets, to dedicated fiber-optic links for extremely high-speed computer communications.

To order business services, call **1-800-483-5400.**

• Data Transmission

GTE offers many voice and data transmission services. We carefully maintain and upgrade our equipment to ensure the best system for your data transmission needs.

Please Note: Not all services are available in all areas. Please call 1-800-483-5400 for more information about the services in your area.

- **MAINTENANCE CONTRACT**

A maintenance contract from GTE will protect your business from costly repairs. In the event you need service, we'll send a professionally trained technician to repair or replace your equipment within 24 hours.

- **COIN TELEPHONES**

Your customers will appreciate the convenience of a coin telephone from GTE at your business. They can stay in touch with their homes or offices, without tying up your business phone.

For more information, call **1-800-483-2646.** If you are interested in customer-owned pay phone service, call **1-800-483-2678.**

WE'RE AT YOUR CALL!

What if I work at home?

If you work at home, GTE has a special line of products and services just for you. They include call management, answering services, accessibility, discount long-distance plans, fax machines, and data access/transport capabilities. Any service can be specially designed to fit your specific needs and ensure that you have the best possible business communication tools. For more information, contact or visit the **GTE Phone Mart** at 2300 S. First Place, Broken Arrow, OK **1-800-730-8229**, and consult with our knowledgeable staff.

WE'RE AT YOUR CALL!

Please Note: Not all services are available in all areas. Please call 1-800-483-5400 for more information about the services in your area.

Where can I learn more about GTE's products and services?

For more information about any GTE service, or to place an order, contact a GTE customer service representative, toll-free, at **1-800-483-4400** *(residential customers)* or **1-800-483-5400** *(business customers).*

You can also contact or visit the **GTE Phone Mart,** a special retail store that sells GTE's complete line of products and services for your home or business. Our knowledgeable Phone Mart staff is ready to help you select the services that best suit your needs. They'll be happy to answer any questions you have about our products and services.

At the **GTE Phone Mart,** you'll also find an extensive collection of telephones — from basic models to phones with high-tech display screens — fax machines, Caller ID display units, and paging devices. Rental telephones are also available at the **GTE Phone Mart.**

The **GTE Phone Mart** is another way to reach GTE customer service departments. At the **GTE Phone Mart,** you can order new service, change your existing service, discuss billing questions, or report repair problems.

There's a lot to see at the **GTE Phone Mart.** Why not call or visit today?

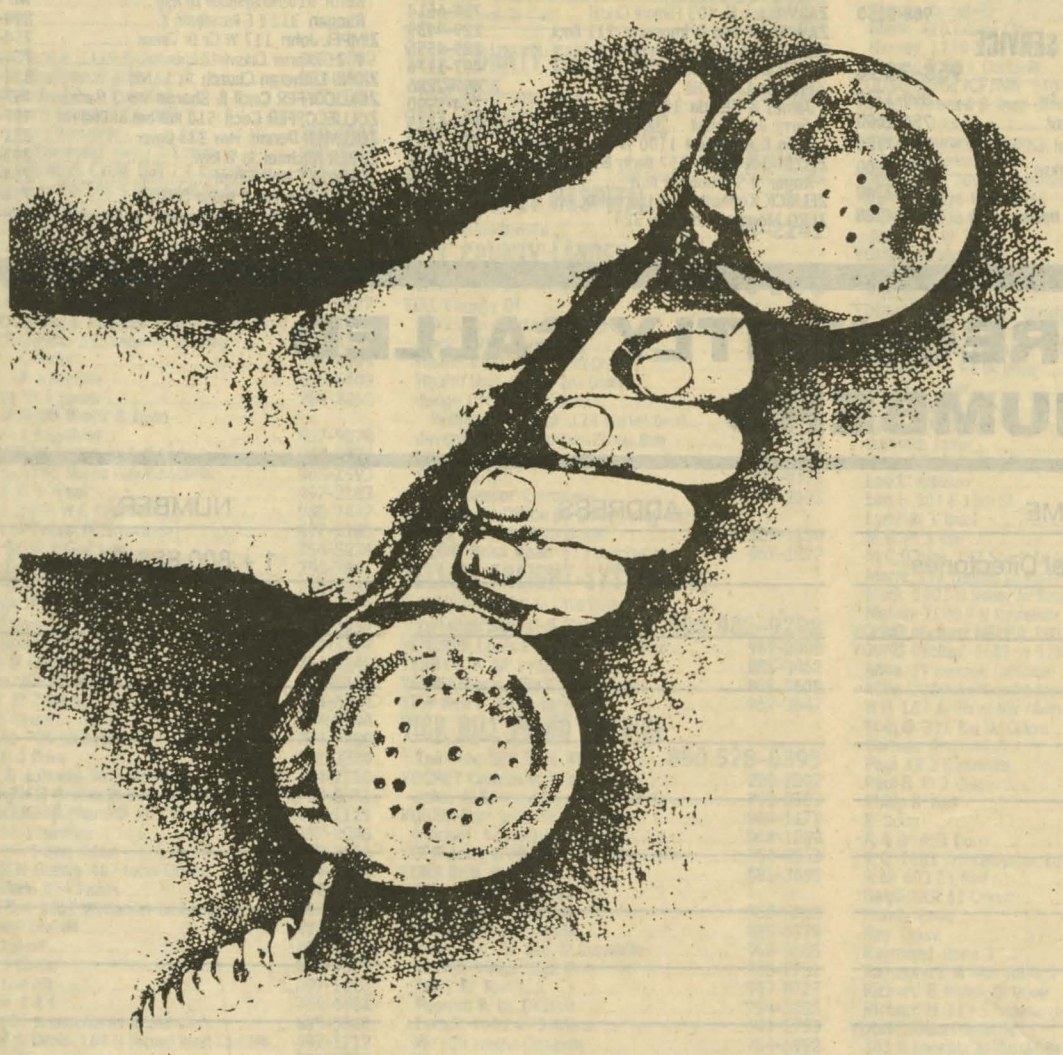
FREQUENTLY CALLED NUMBERS

NAME	ADDRESS	NUMBER
For Additional Directories		1 + 800 888-8448

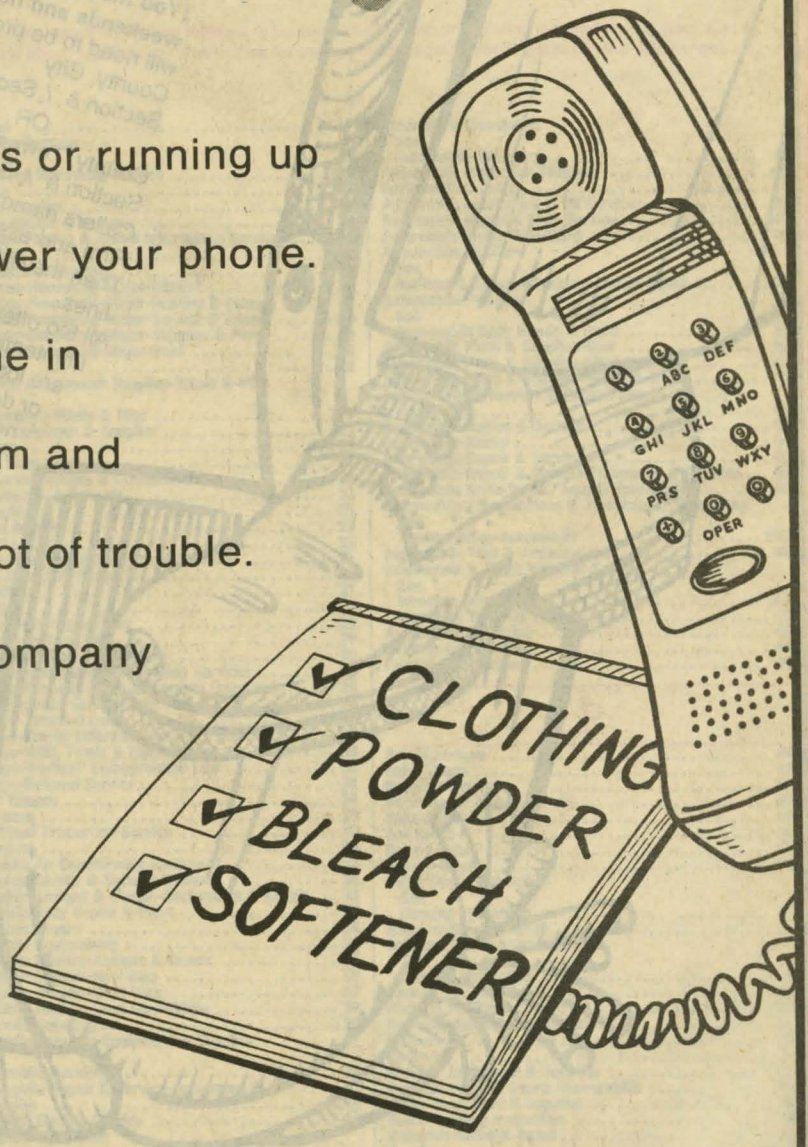
SOUND TRANSPORTATION.

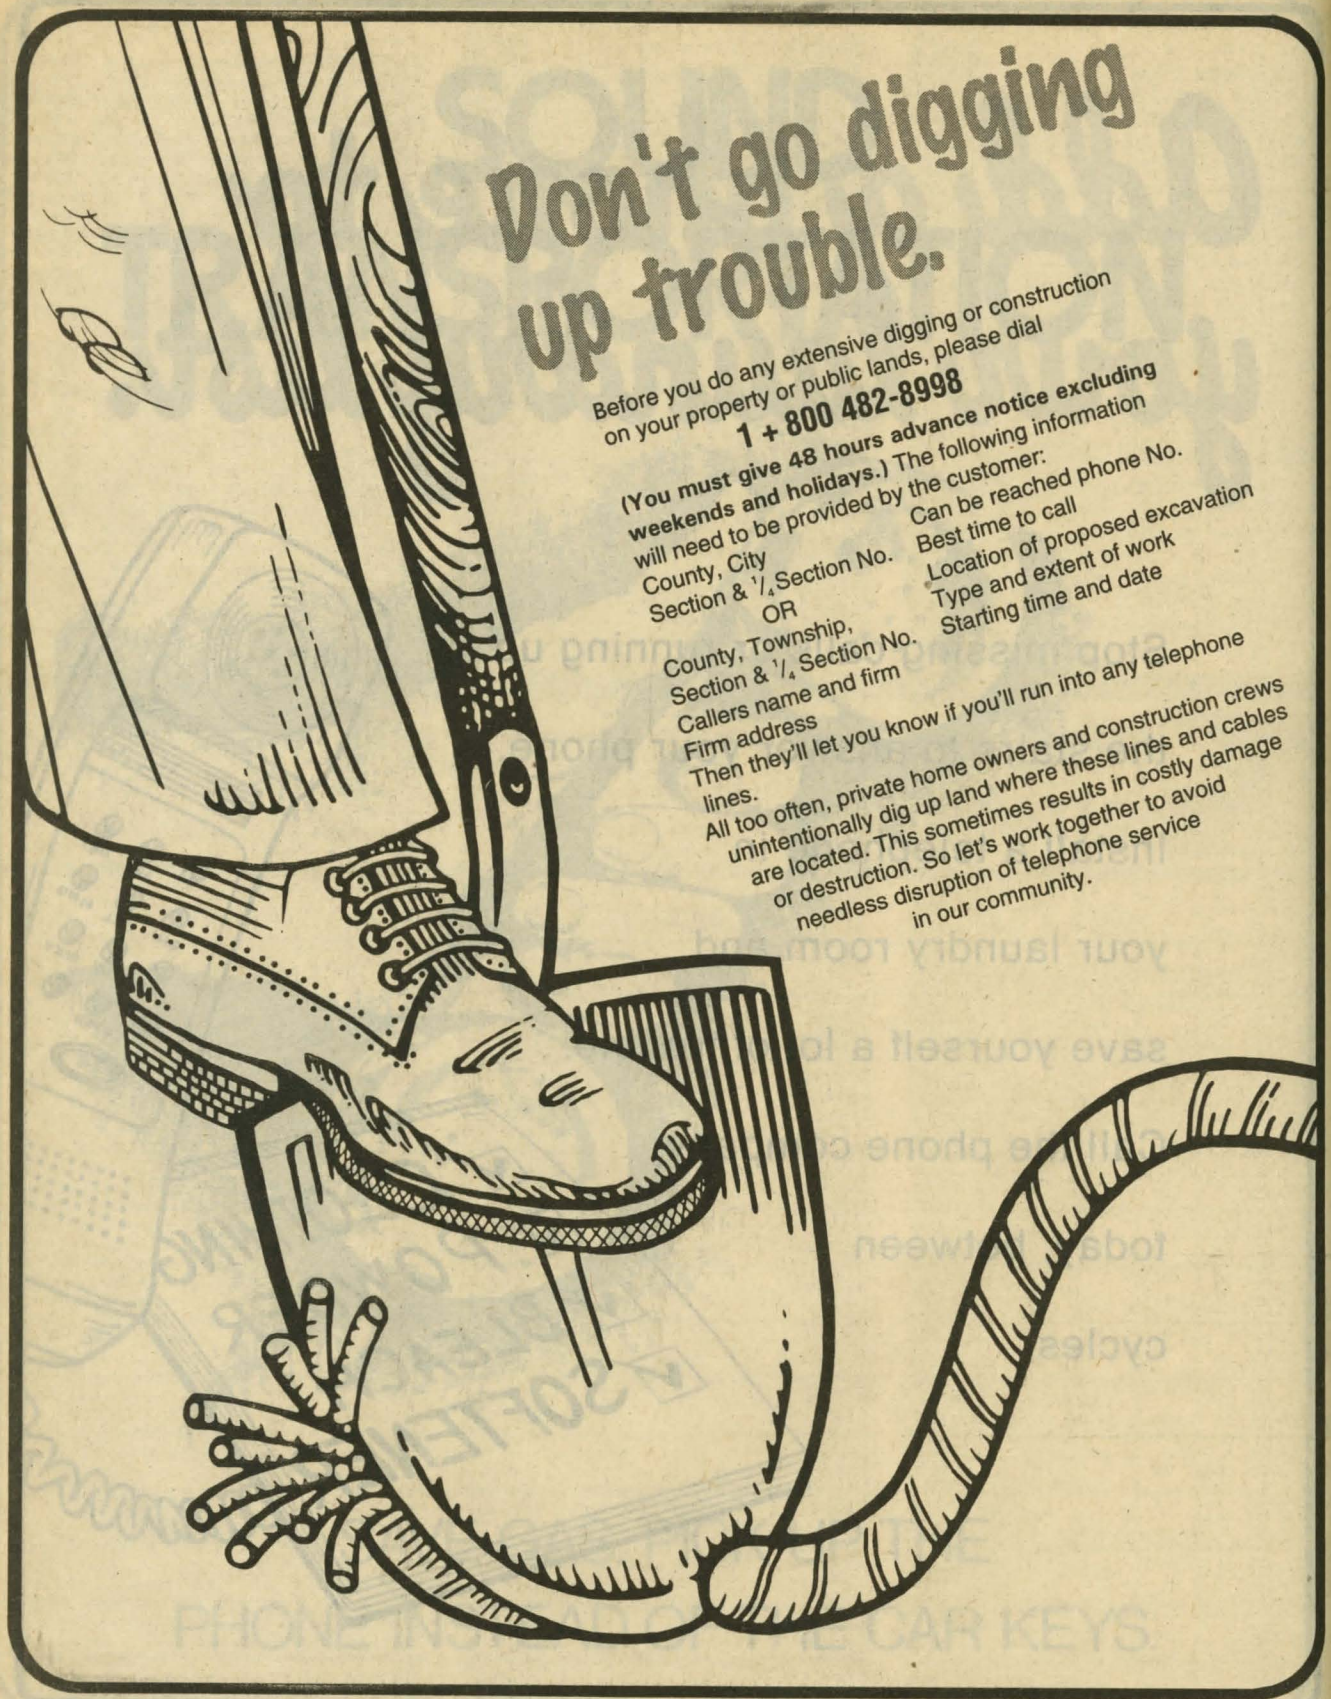


SAVE GAS. PICK UP THE PHONE INSTEAD OF THE CAR KEYS.

Add a phone to your laundry list.

Stop missing calls or running up the stairs to answer your phone. Install a telephone in your laundry room and save yourself a lot of trouble. Call the phone company today, between cycles.





Don't go digging up trouble.
Before you do any extensive digging or construction on your property or public lands, please dial
1 + 800 482-8998
(You must give 48 hours advance notice excluding weekends and holidays.) The following information will need to be provided by the customer:
County, City
Section & 1/4 Section No.
OR
County, Township,
Section & 1/4 Section No.
Callers name and firm
Firm address
Can be reached phone No.
Best time to call
Location of proposed excavation
Type and extent of work
Starting time and date
Then they'll let you know if you'll run into any telephone lines.
All too often, private home owners and construction crews unintentionally dig up land where these lines and cables are located. This sometimes results in costly damage or destruction. So let's work together to avoid needless disruption of telephone service in our community.

YELLOW PAGES INDEX

EVERYTHING FROM A PARAKEET TO A PAIR OF SHOES. Looking for something specific in the Yellow Pages? No matter what you need, from a pet bird to a wingtip, the Yellow Pages Index has page numbers and convenient cross-references that will point you right to it.

* Advertisers appearing in the Yellow Pages section under some categories may be required to possess certification or licensing required by the state, county or other government entity. We urge consumers with questions about legal compliance to look for the appropriate government agency in the government listings of this directory.

The best advertising for a business is advertising that makes the phone ring and brings customers to the door.
Keep both busy by advertising in The Everything Pages® directory.
GTE *The Everything Pages*

A house is not a home without a phone.
Moving? If you are, get in touch with the telephone company and they'll tell you what to do. The telephone company is one old friend that'll always be with you no matter where you go.

David A. Hodges, Jr. David A. Hodges

Discover why other attorneys send their personal injury cases to us.

For years, attorneys across the state have referred their injured clients to us for steadfast representation. Most cases are settled out of court, but if not we'll put over 30 years of real courtroom experience to work for you. Call us for a free initial consultation and remember if we don't win your case, you don't owe us anything.

Steer yourself away from the gas pumps by calling instead of driving.

Now's the time to install your phone.

Give the phone company a call while you're constructing your new home. They'll put in all your wiring and outlets then. That way you'll avoid unnecessary inconvenience after you move in.

Stay close to someone far, far away.

No matter where you are, no matter how far away, a telephone can instantly bring you together with those you love. And the phone company's low evening, weekend and holiday Long Distance rates will keep the costs down. Remember, when you're miles apart, Long Distance means you're really only inches away.

GTE

Save time,

money, and gasoline!

Use

The Everything Pages®

directory from GTE.

Your Local Shopping Expert™ directory.

When the customers you want to reach need information about your business, they reach for their GTE directory.

GTE *The Everything Pages®*

Interested in saving money?

Ask your GTE directory representative about Co-op dollars that may be available to help pay for your Yellow Pages advertising program.

GTE *The Everything Pages®*

The Answer Book

Whether it's the Police or Fire Department, long distance instructions, area codes, or other telephone information - you have it right in the front pages of your local telephone directory.

Local business belongs here!

Travel the speed of sound and save gas.

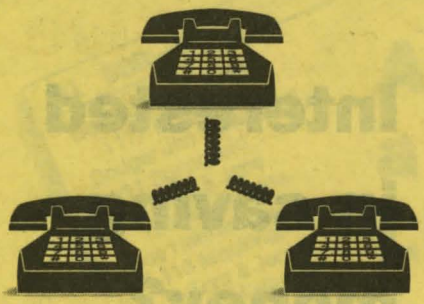
With the telephone, of course. It can get you there without gasoline. And you can travel at lower rates by direct dialing your long distance calls after five on weekdays and anytime Saturday or Sunday.

GTE

Get pushy

Why not get a Touch Call phone? Pushbutton dialing is fast, accurate and fun. And it comes in a variety of styles and colors. So, give the phone company a call and stop going around in circles.

GTE



Maybe it would help if we talked to him together.

With Three-way Calling, you could bring him on the line in moments with pushbutton ease. Three-way Calling is great for family reunions, for business meetings without travel. Call your GTE service representative for details.

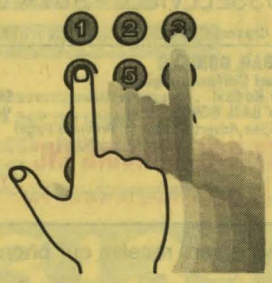
FDIC CIRRUS MPACT EXPRESS PLUS EQUAL HOUSING LENDER



Don't be too pushy.

Often, when you make a call too quickly, you get the wrong number. Wrong numbers mean extra work, wasted time and inconvenience. So, take your time, and give phone service a push in the right direction.

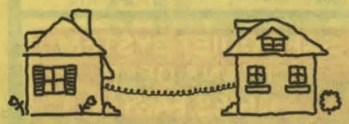
People look in GTE's The Everything Pages® directory when they are ready to buy.

A house is not a home without a phone.

Moving? If you are, get in touch with the telephone company and they'll tell you what to do. The telephone company is one old friend that'll always be with you no matter where you go.

GTE

The shortest distance between two friends.



You're as close to those you care for as you are to the nearest telephone. Low evening, weekend and holiday Long Distance rates take care of the cost. Remember, when you're miles apart, Long Distance means you're really only inches away.

GTE

Sound Transportation

Save gas. Pick up the phone instead of the car keys.

It's time they were on their own... telephone.

Here's something for the kids, their own line. Besides giving them a sense of identity and individuality, it shows them you care. So call the phone company - as soon as your kids get off the phone! - and make it official!

GTE

Now's the time to install your phone.

Give the phone company a call while you're constructing your new home. They'll put in all your wiring and outlets then. That way you'll avoid unnecessary inconvenience after you move in.

Stay close to someone far, far away.

No matter where you are, no matter how far away, a telephone can instantly bring you together with those you love. And the phone company's low evening, weekend and holiday Long Distance rates will keep the costs down. Remember, when you're miles apart, Long Distance means you're really only inches away.

Maybe it would help if we talked to him together.

With Three-way Calling, you could bring him on the line in moments with pushbutton ease. Three-way Calling is great for family reunions, for business meetings without travel. Call your GTE service representative for details.

GTE

Get pushy

Why not get a Touch Call phone? Pushbutton dialing is fast, accurate and fun. And it comes in a variety of styles and colors. So, give the phone company a call and stop going around in circles.

Pillow talk.

Sweet dreams will be yours with a phone by your pillow. No leaping out of bed or running down the stairs in the dark. Call the phone company today and ask about easy bedroom phone installation.

GTE

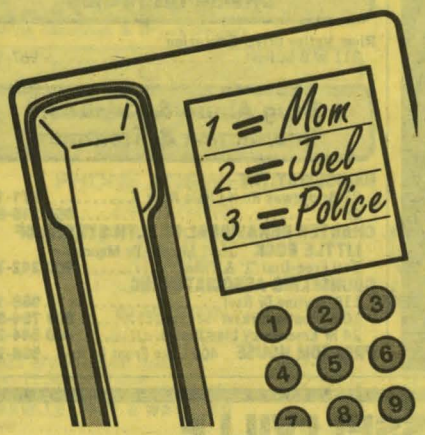
If you hate to wait...

Make reservations before you leave home Go by phone



You're not my mother? I'm sorry, wrong number.

With Speed Calling, you can reach Mom with one or two digits. Your phone line remembers the longer number... and enters it correctly. Great for emergency numbers, too. Call your GTE service representative for details.

Don't be too pushy.

Often, when you make a call too quickly, you get the wrong number. Wrong numbers mean extra work, wasted time and inconvenience. So, take your time, and give phone service a push in the right direction.

Use the phone before the shovel.

Cutting buried cables can be disruptive for hundreds of people by putting phones out of service. So use your phone first to locate cable. Call us before you dig.

The World of Bob Timberlake™
LEXINGTON FURNITURE INDUSTRIES

Watercolorist Bob Timberlake is world famous for lifelike depictions of his rural North Carolina heritage. Last year he focused his talent for preserving the American experience on a new project: home furnishings.

"The World of Bob Timberlake" is an extensive collection of furniture for investors who appreciate hand crafted excellence and unselfconscious beauty. Executed in solid cherry, designs for living rooms, bedrooms, and dining rooms are available in natural and painted finishes. An extensive selection of original fabrics adorn several upholstery designs ...there's even handcrafted wicker.

This extraordinary collection has been the focus of national magazines and TV talk shows. Now you can see it for yourself in our showroom. You, too can become a part of "The World of Bob Timberlake.

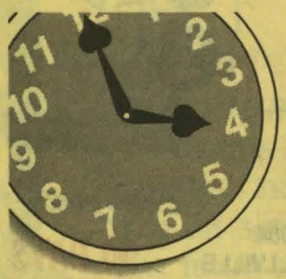
We've got more than your number! The Everything Pages® directory from GTE.



Why advertise in The Everything Pages® telephone directory?

Because it reaches customers when they are ready to buy, 24 hours a day, 365 days a year.

GTE *The Everything Pages*

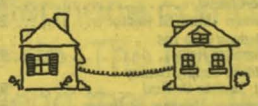
When time is money,

your telephone

saves you both.

The shortest distance between two friends.



You're as close to those you care for as you are to the nearest telephone. Low evening, weekend and holiday Long Distance rates take care of the cost. Remember, when you're miles apart, Long Distance means you're really only inches away.

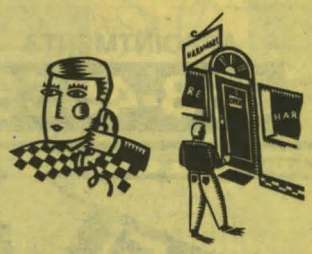
People look in GTE's The Everything Pages® directory when they are ready to buy.

A house is not a home without a phone.

Moving? If you are, get in touch with the telephone company and they'll tell you what to do. The telephone company is one old friend that'll always be with you no matter where you go.

GTE



The best advertising for a business is advertising that makes the phone ring and brings customers to the door.

Keep both busy by advertising in The Everything Pages® directory.

Ask About a Dual Listing.

Residential customers now have the option of including a second person's name in their directory listing. They can do this provided that person has the same last name, and is living at the same address with the same telephone number. You can get all the details on this service by calling the Business Office at your telephone company.

Stay close to someone far, far away.

No matter where you are, no matter how far away, a telephone can instantly bring you together with those you love. And the phone company's low evening, weekend and holiday Long Distance rates will keep the costs down. Remember, when you're miles apart, Long Distance means you're really only inches away.

Say Hello

An ad in The Everything Pages® directory is often the consumer's introduction to a business.

GTE The Everything Pages®

Don't be too pushy.

Often, when you make a call too quickly, you get the wrong number. Wrong numbers mean extra work, wasted time and inconvenience. So, take your time, and give phone service a push in the right direction.

The best advertising for a business is advertising that makes the phone ring and brings customers to the door.

Keep both busy by advertising in The Everything Pages® directory.

1710 West C Place ❧ Russellville

It's time they were on their own... telephone.

Here's something for the kids, their own line. Besides giving them a sense of identity and individuality, it shows them you care. So call the phone company - as soon as your kids get off the phone! - and make it official!

GTE

Weekend Driving.

Steer yourself away from gas pumps by calling instead of driving.

GTE

Now's the time to install your phone.

Give the phone company a call while you're constructing your new home. They'll put in all your wiring and outlets then. That way you'll avoid unnecessary inconvenience after you move in.

On any given day, at any given hour, people are opening their GTE Yellow Pages.

Stay close to someone far, far away.

No matter where you are, no matter how far away, a telephone can instantly bring you together with those you love. And the phone company's low evening, weekend and holiday Long Distance rates will keep the costs down. Remember, when you're miles apart, Long Distance means you're really only inches away.

Travel the speed of sound and save gas.

With the telephone, of course. It can get you there without gasoline. And you can travel at lower rates by direct dialing your long distance calls after five on weekdays and anytime Saturday or Sunday.

GTE

Give 'em the business long distance.

Long Distance is always your fastest and most reliable means of communication no matter what line of business you're in. So pick up the phone and pick up business, too.

Say Hello

An ad in The Everything Pages® directory is often the consumer's introduction to a business.

GTE The Everything Pages®

Don't be too pushy.

Often, when you make a call too quickly, you get the wrong number. Wrong numbers mean extra work, wasted time and inconvenience. So, take your time, and give phone service a push in the right direction.

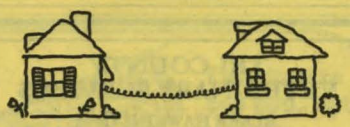
25 YEARS EXPERIENCE
PROFESSIONAL SERVICE

321 WEST B STREET, RUSSELLVILLE

BRUSHES • CORDS

The shortest distance between two friends.



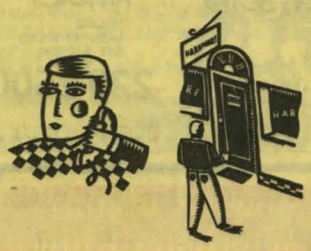
You're as close to those you care for as you are to the nearest telephone. Low evening, weekend and holiday Long Distance rates take care of the cost. Remember, when you're miles apart, Long Distance means you're really only inches away.

GTE

A house is not a home without a phone.

Moving? If you are, get in touch with the telephone company and they'll tell you what to do. The telephone company is one old friend that'll always be with you no matter where you go.

GTE



The best advertising for a business is advertising that makes the phone ring and brings customers to the door.

Keep both busy by advertising in The Everything Pages® directory.

for themselves.
Smart Ring from GTE.
A SmartCall® Service.

Don't go digging up trouble.

Before you do any extensive digging or construction on your property or public lands, please dial

1 + 800 482-8998

(You must give 48 hours advance notice excluding weekends and holidays.) The following information will need to be provided by the customer:

County, City
Section & 1/4 Section No.
OR
County, Township,
Section & 1/4 Section No.
Callers name and firm
Firm address
Can be reached phone No.
Best time to call
Location of proposed excavation
Type and extent of work
Starting time and date

Then they'll let you know if you'll run into any telephone lines.

All too often, private home owners and construction crews unintentionally dig up land where these lines and cables are located. This sometimes results in costly damage or destruction. So let's work together to avoid needless disruption of telephone service in our community.

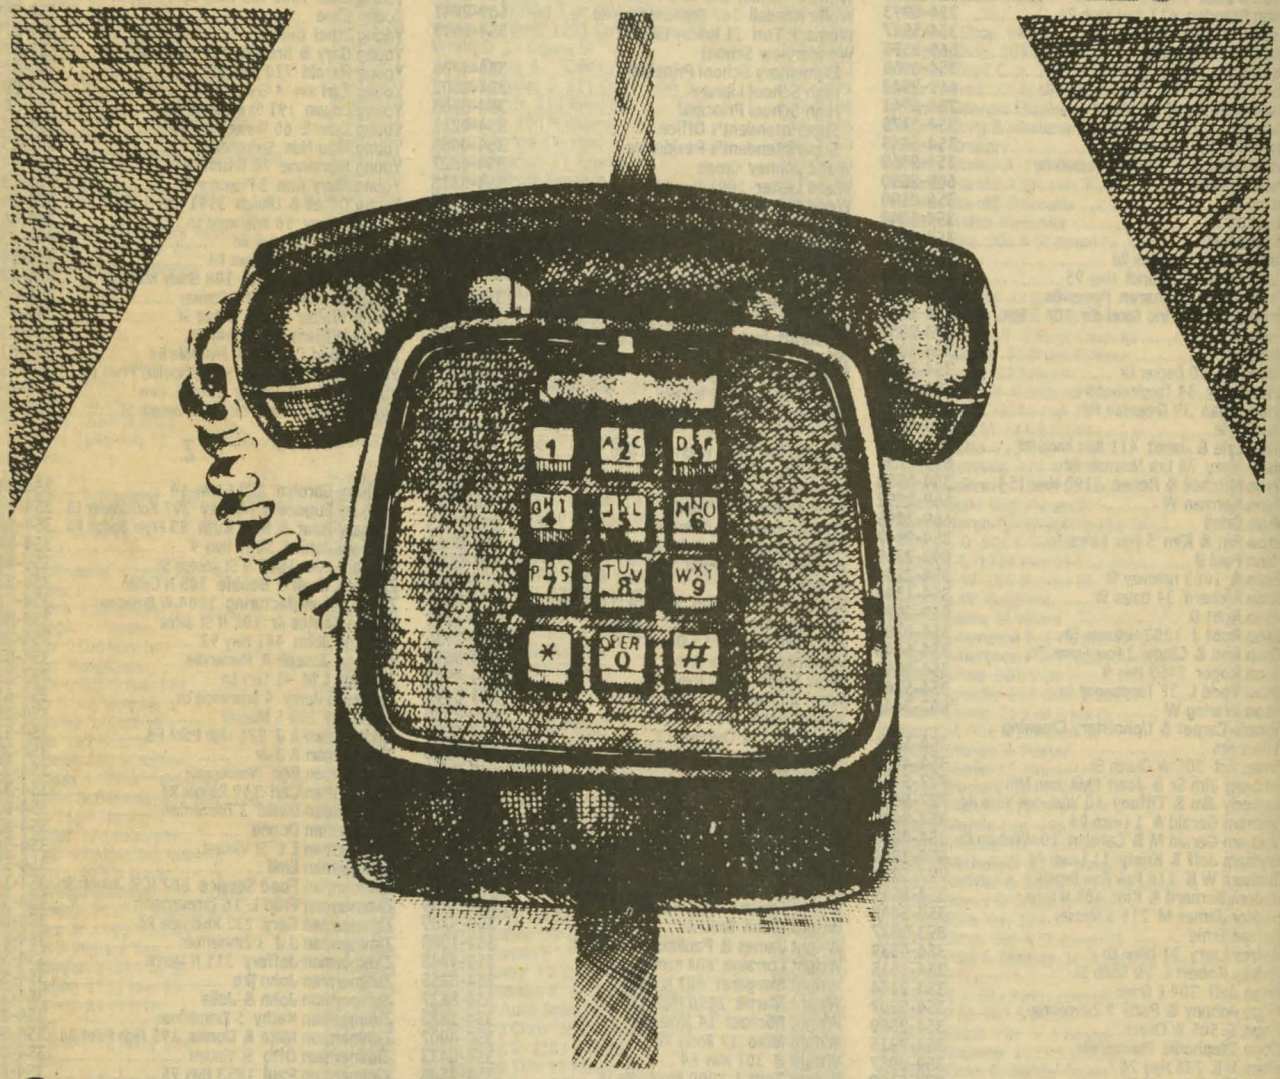
UNLIMITED GAS MILEAGE.

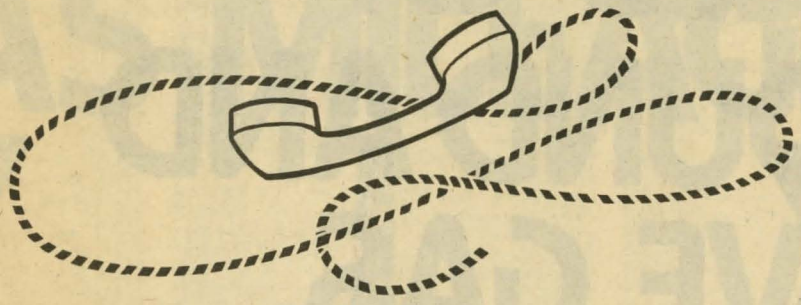


Get behind the telephone instead of the steering wheel.
And you can get around without gas.

TRAVEL THE SPEED OF SOUND AND SAVE GAS.

With the telephone, of course. It can get you there without gasoline. And you can travel at lower rates by direct dialing your long-distance calls after five on weekdays and any time Saturday or Sunday.

How to improve your
TELEPHONE SERVICE



WHEN YOU CALL ...

* Look up the number in your directory. It's faster than calling Directory Assistance (Information).

* Make sure you get the number right. Otherwise, you'll just have to dial it again.

* Wait long enough for the other person to answer. Sometimes he's occupied.

* Speak directly into the mouthpiece so the other person can hear you clearly.

WHEN YOU ANSWER ...

* Do it promptly. Not everybody is as patient as you'd like them to be.

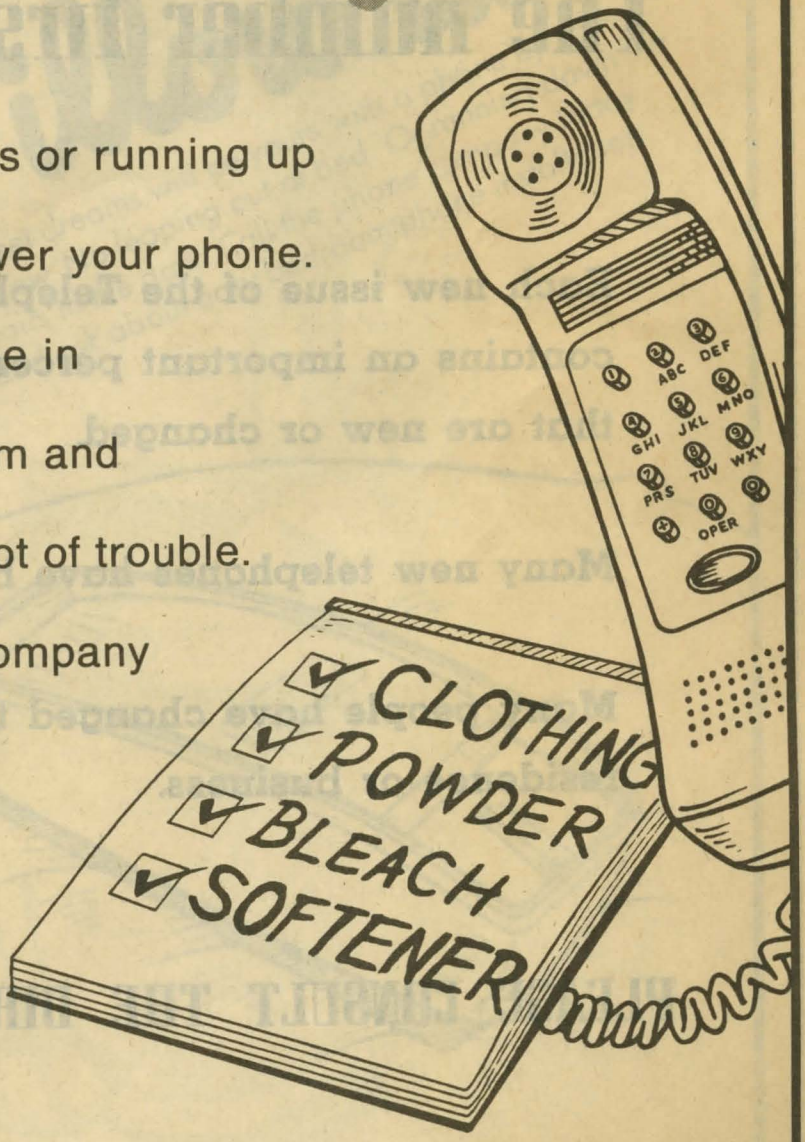
* Don't just say "Hello." Say something like, "Hello, this is Mary Smith."

WHEN YOU HANG UP ...

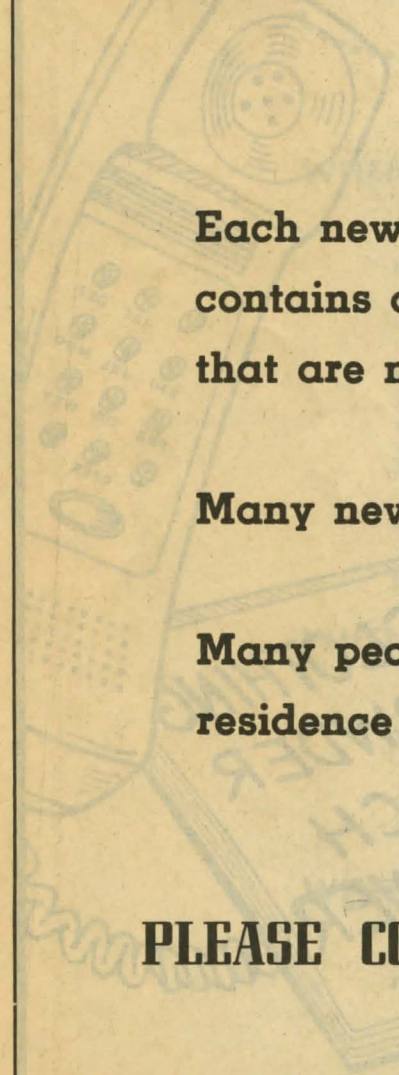
* Do it gently. The other person may still have the receiver to his ear.

Add a phone to your laundry list.

Stop missing calls or running up the stairs to answer your phone. Install a telephone in your laundry room and save yourself a lot of trouble. Call the phone company today, between cycles.



To speed service
Please look up
The number first!



Each new issue of the Telephone Directory contains an important percentage of listings that are new or changed.

Many new telephones have been installed.

Many people have changed their places of residence or business.

PLEASE CONSULT THE DIRECTORY FIRST

Pillow talk.
Sweet dreams will be yours with a phone by your pillow. No leaping out of bed. Or running down the stairs in the dark. Call the phone company today and ask about easy bedroom phone installation.

Don't go digging up trouble.

Before you do any extensive digging or construction on your property or public lands, please dial

1 + 800 482-8998

(You must give 48 hours advance notice excluding weekends and holidays.) The following information will need to be provided by the customer:

County, City
Section & 1/4 Section No.
OR
County, Township,
Section & 1/4 Section No.
Callers name and firm
Firm address
Can be reached phone No.
Best time to call
Location of proposed excavation
Type and extent of work
Starting time and date

Then they'll let you know if you'll run into any telephone lines.

All too often, private home owners and construction crews unintentionally dig up land where these lines and cables are located. This sometimes results in costly damage or destruction. So let's work together to avoid needless disruption of telephone service in our community.
